# PNB committed to raising financial literacy via Minggu Saham Digital

ccording to Permodalan Nasional Bhd (PNB) president and group chief executive Ahmad Zulqarnain Onn, the Malaysian government-owned fund management entity's focus on creating value and generating longterm sustainable returns for its unitholders goes hand in hand with PNB's commitment to raising financial literacy standards and empowering Malaysians to make better financial decisions for their future. PNB's statement was issued in conjunction with the Thursday pre-launch of PNB's Minggu Saham Digital (MSD) from Nov 17 to 23, 2021 after a successful inaugural run in 2020. With the same goal as its predecessor Minggu Saham Amanah Malaysia (MSAM), MSD remains as PNB's integrated financial literacy platform to achieve this aim. MSD is an evolution from PNB's MSAM which had been held physically from 2000 until 2019. The digital event is now accessible to a much wider audience throughout the country from the comfort of their own homes and at the touch of their fingertips. MSD 2021 will be broadcast daily between 12.30pm and 10.00pm from Nov 17 to 23, 2021 through its official Facebook page and YouTube channel. The official launch ceremony of MSD 2021 is scheduled for Nov 18, 2021 at 1pm. MSD 2021 follows the encouraging response PNB received for its maiden MSD in 2020 during which the programme received over two million views across its Facebook page and YouTube channel. Learning from last year and seeing the success of MSD 2020 from a number's standpoint, he is confident and hopes to be able to attract more viewers and engage them with even higher quality content this year. He believes that while planning for financial well-being is a serious matter, learning the ropes need not be. With the official theme #LaburBersama, MSD makes available various resources and educational materials on unit trust investments, risk and return, and financial planning for all Malaysians in the comfort of their own homes.

# Malaysia's consumer spending to begin recovery in 2022 - Fitch

According to Fitch Solutions Country Risk & Industry Research in its Malaysia 2022 Consumer Outlook report, it has forecast household spending in Malaysia to grow by a real rate of 5.1% over 2022 as consumers recover from two years of contraction in spending levels. Spending will follow the wider economic recovery as higher vaccination rates over the first half of 2022 allow for more localities to lift restrictions that have hampered retail sales. However several risks remain to the outlook over 2022, especially in the first quarter of the year, including elevated inflation and the possibility of new Covid-19 variants, which could lead to the reimposition of Covid-19 related restrictions. Total consumer spending would fall to RM855 billion over 2021 5.4% lower than the RM905 billion recorded in 2019 in the pre-Covid-19 environment. As such the Malaysian consumer recovery from Covid-19 will only begin in 2022. However, the recovery will be rapid enough to total RM915 billion in 2022, building slightly on the figure recorded pre-pandemic. Retail sales in Malaysia had been weak over 2021, with growth mainly coming from a low base. This weakness stems from the prolonged lockdown restrictions impacting both consumers and retailers. These restrictions have been severe in populated regions of the country, like the Klang Valley (centred on Kuala Lumpur and includes its adjoining cities and towns in Selangor) which accounts for approximately 60% of retail sales in Malaysia, delaying the recovery in retail sales. Although vaccination is accelerating, it is unlikely that the country achieves herd immunity before the end of 2021, making a surge in retail sales towards the end of the year improbable. Further downside risks to the forecast, given the high level of political risk since the beginning of 2H21 and the risk that the Covid-19 outbreak could worsen over the coming months, which could further affect both retail sales and consumer confidence. Its consumer spending forecast is in line with its country risk view that the wider economy is forecast to grow by 5.5% over 2022. Malaysia's economic recovery from the Covid-19 pandemic will be slow, with the country being in a constant state of lockdown for nearly two years. The domestic demand outlook had weakened considerably, with consumer spending in 2021 likely to be worse than in 2020. Citing the Department of Statistics Malaysia, unemployment is likely to rise over 2H21, and already started to climb to 4.8% in June 2021 from 4.5% in May 2021 when unemployment had averaged 3.3% pre-pandemic. Industries Unite, an association of 115 Malaysian businesses, had warned in early July 2021 of impending mass unemployment if the lockdowns were to persist. The serious outbreak will also set back any plans to reopen to international travel, dashing any prospects of tourism and other related sectors beginning to recover in 2021.

# Government will step up efforts to help MSMEs - Mustapa

According to Minister in the Prime Minister's Department (Economy) Datuk Seri Mustapa Mohamed, in his keynote address on "Shifting the Malaysian Economy Into Higher Gear: Assessment, Strategy, and Action" at the virtual Perdana Leadership Foundation CEO Forum 2021, the government will intensify its efforts to help micro, small and medium enterprises (MSMEs), especially small business owners, by implementing income-raising and capacitybuilding programmes in urban and rural areas, as well as by encouraging entrepreneurship and access to financing facilities. The government has recognised that it cannot adopt a "business-asusual" approach in dealing with post-pandemic challenges. Some of the vulnerabilities and weaknesses exposed by this crisis are certainly not new. Hence, it is imperative that the government take this opportunity to reform the economy and 'build back better'. In building back better, the 12th Malaysia Plan (12MP) aims to ensure that the nation can achieve high income status by 2025 and be more sustainable in order to ensure that it can become a carbon neutral country at the earliest in 2050. The plan will also provide more balanced development across regions and states to ensure that the fruits of development are equally shared by the citizens. The government's priorities in the next five years include increasing incomes, eliminating absolute poverty, and reducing development gaps between states and regions, as well as ensuring quality growth that is sustainable.

## Markets

Despite the selloff in the bond market on rising concern that central banks may have to raise rates sooner than expected, global markets were broadly firmer this week on the back of strong quarterly results from major US corporates. Meanwhile, the International Monetary Fund (IMF) cut its outlook for Asia-Pacific to 6.5% this year, which is 1.1 percentage points lower than its forecast in April. However, the IMF raised its forecast for 2022 to 5.7%, higher than the 5.4% forecast made six months ago. The revised outlook was mainly due to the Delta variant, which continues to impact economic activities, as well as the slow pace of vaccination in certain countries.

It was a memorable week for markets as the debut of the ProShares Bitcoin Strategy Exchange Traded Fund (ETF) based on Bitcoin futures contract. The new ETF was met with an overwhelming response, which saw a turnover of US\$2.2bil on its first two days of trading and closed more than 8% higher from its reference price of US\$40 per unit. The ETF also made history by achieving huge net inflows at it hit the US\$1bil mark in assets under management in just two days, as Bitcoin hit a fresh record high of US\$66,000 per coin. Locally, Crude Palm Oil too made a fresh record high as the benchmark January 2022 contract traded on Bursa Malaysia Derivatives hit an intra-day record high RM5,220 before settling at RM5,173 on Thursday.

#### Economy

Last Friday, for the first time since the outbreak of the pandemic, the weekly US jobless claims fell below 300,000. Investors were also encouraged by a smaller than expected rise in the US Producer Price Index for September, which grew by 8.6% y-o-y against a forecast of 8.8%. Meanwhile, the preliminary University of Michigan Consumer Sentiment Index fell to its second-lowest point in 10 years as the October reading dropped to 71.4 from 72.8 in the preceding month, and below the consensus estimate of 73.1. Nevertheless, despite the weakness in sentiment, US retail sales remained buoyant as September retail sales jumped 13.9% y-o-y, while the m-o-m data showed retail sales grew by 0.7% against the market's forecast of a 0.2% decline. In other news, the September US Industrial Production Index dropped 1.3% m-o-m, the fastest pace in seven months, reflecting supply chain disruptions and material shortage due to a surge in commodity prices. US housing starts missed market expectations as September data fell by 1.6% m-o-m to just 1.56mil annualized rate and much slower than the consensus estimate of a 1.63mil. Meanwhile, Building Permit for September too came in way below

expectations with a sharp fall of 7.7% m-o-m to an annualized rate of just 1.59mil units against the market forecast of 1.72mil pace.

Meanwhile, the Federal Reserve's Beige Book showed the U.S. economy is growing at a modest to moderate pace, but inflationary pressure remains due to supply-chain bottlenecks and tight labour market conditions.

Out of China, the much-anticipated 3Q GDP data was disappointing as the world's secondlargest economy expanded by just 4.9% y-o-y against the consensus estimate of a 5.2% growth. In other related economic data that was released, China's September Industrial Production rose by 3.1% y-o-y, which was below the market estimate of a 3.8% rise, while September Retail Sales came in ahead of expectations, with a jump of 4.4% y-o-y. For fixed-asset investment, China recorded an increase of 7.3% in the first nine months from a year ago, lower than the consensus estimate of 7.8% rise.

In other news, Japan saw a better than expected growth in exports for September but the pace of growth at just 13% y-o-y was almost half the preceding month as the land of the rising sun too is battling against pandemic related supply chain disruptions. Meanwhile, Bank Indonesia left the key benchmark rate unchanged at 3.5% and at the same time reiterated its GDP growth projection for this year at between 3.5% and 4.3%.

Locally, the Malaysian Automotive Association revealed that the September Total Industry Volume (TIV) stood at 44,275 units, up 153% m-o-m, but lower by 23.3% y-o-y. For the first nine months period, TIV reached 318,874 units, down 7.3% y-o-y from last year's cumulative figures for the same period of 344,019 units.

#### Corporate

Air Asia X (AAX), which is undertaking a debt restructuring exercise for its RM33.65bil of liabilities, has proposed to pay just 0.5% to its creditors. According to AAX, the cash payment will be made from operating cash flow one year after the debt restructuring goes into effect. In other news, Gamuda has acquired 5.6 hectares of land located at Binh Duong New City, Vietnam for US\$53.88mil or RM224.1mil. Gamuda intends to undertake property-related development with a potential gross development value of US\$117mil or RM487mil. Inari Amertron is taking a big step in venturing into the Outsourced Semiconductor Assembly and Test (OSAT) business in China by entering into a Memorandum of Understanding (MoU) with China Fortune-Tech Capital Co. Ltd. Under the MoU, both parties will work towards forming a joint-venture, in which Inari will own 55% shareholding upon completion of capital injection. Other corporate news of

the week was related to MyEG Services and Axis Real Estate Investment Trust's proposed new private placement exercise to raise approximately RM309mil and RM353.5mil respectively.

Meanwhile, Supermax Corporation became the latest glove manufacturer to be subjected to US Customs and Border Protection which issued a withhold release order against the company based on information that "reasonably indicates" the use of forced labour. Supermax also responded to the Exchange that it has appointed an independent international consulting firm to conduct an audit on its labour practices. In other glove-related news, Kossan Rubber Industries announced their 3Q guarterly results which saw revenue and net earnings falling by 41.8% and 50.4% q-o-q to RM1.303bil and RM528.2mil respectively.

#### Equity

World equity markets were broadly firmer this week with gains of between 0.1% to as much as 4.2% on the Hang Seng Index. Locally, the KLCI closed relatively flat with a drop of 0.9 points at 1,591.62, as selling pressure on Thursday caused the KLCI to lose 14.70 points and wiped out gains made earlier.

For the holiday-shortened week ended Oct 20th, foreigners raised their net buying interest in the market with an inflow of RM863mil, while both local institutions and retailers were net sellers with an outflow of RM728.1mil and RM134.9mil respectively.

#### Eye on Week Ahead

Later today, IHS Markit will be releasing the Flash Eurozone Composite and Manufacturing Purchasing Managers' Index (PMI) with the consensus expected a slight dip in the reading at 57.0 and 55.2 against 58.6 and 56.2 in the preceding month respectively. Next week Tuesday, Oct 26, the Conference Board will release the US Consumer Confidence data for October while the September New Home Sales data is due on the same day too while the next day will see the release of the US September Durable Goods Order. Thursday, Oct 28 is a big day for global markets as both the Japanese and European Central Bank will decide on benchmark interest rates while the US will release the 3Q GDP advanced estimate, which consensus is expected a slower growth of just 3.2% against 6.7% in the 2Q. Locally, the Department of Statistics Malaysia (DOSM) will be releasing the September Consumer Price Index (CPI) today. On Monday, Oct 25, Bank Negara Malaysia will be announcing Malaysia's International Reserves as at Oct 15, 2021. Meanwhile, DOSM will be releasing data on Malaysia's external trade and Producer Price Index for September on Thursday, Oct 28.

# CHHB shareholders subject to dilution with new shares issuance to pay for executive chairman's assets

On 6 October 2021, Country Heights Holdings Bhd (CHHB) announced that it has inked five heads of agreements (HOA) to acquire assets from the private investment holdings of its executive chairman Tan Sri Lee Kim Yew in exchange for a 100% issuance of CHHB shares. According to CHHB, the corporate exercise is intended to delineate a clearer line of operations between the private interests of the controlling shareholder and the public listed group.

In essence, the five HOAs are:

# • A 29.63% stake in Country Heights Health Tourism Sdn Bhd

The acquisition of 29.63% stake in Country Heights Health Tourism Sdn Bhd from Country Heights Venture Sdn Bhd for RM6 million through the issuance of five million new ordinary shares in CHHB at an issue price of RM1.20 apiece. This will result in CHHB owning 80% of the wellness division with the current CEO holding the remaining interest. GHHS Healthcare, the brand name for Country Heights Health Tourism will present an expansion plan for CHHB group wellness operations as it has tremendous growth potential to expand their existing 30,000 membership and wellness offerings into TCM (Traditional Chinese Medicine) hospital; confinement hotel; elderly daycare; and pharmacy.

# Mines Waterfront Business Park (MWBP) Level 9 & 10

The acquisition of 9th and 10th Floor of Block A of The Mines Waterfront Business Park @ The Mines Resort City with a total area of approximately 22,500 sq ft from Fresh Avenue Sdn Bhd for RM12 million through the issuance of 10 million new CHHB shares at an issue price of RM1.20 per share. This exercise will allow CHHB to consolidate all units in MWBP for future corporate exercises.

# • Two pieces of land in Ulu Langat for future high-rise development

The acquisition of a plot of 5.62 acres land in Daerah Ulu Langat from Bee Garden Holdings Sdn Bhd for RM42 million through the issuance of 35 million new CHHB shares at RM1.20/share. The acquisition of another plot of land in Daerah Ulu Langat measuring circa 2.82 acres from Castlepark Sdn Bhd for RM21 million through issuance of 17.5 million CHHB shares at RM1.20/share.

# • Land in the Mines Township

The acquisition of a parcel of waterfront development land measuring 37.98 acres which is dubbed the jewel in the Mines Township from Mines Wonderland Sdn Bhd for RM400 million through the issuance of 333.33 million new CHHB shares at RM1.20/ share.

# • Leasehold land to be developed into Dream City Phase 2

A HOA with Mines Resort Sdn Bhd to acquire a portion of leasehold land measuring 4.325 acres (of a total 7.244 acres) in Pekan Baru Sungei Besi, (on which 4 blocks of service apartments will be developed and identified as phase 2 of Dream City), together with the rights and interests in the joint development of Dream City Phase 2 for RM73 million through the issuance of 60.83 million new CHHB shares at RM1.20/share.

Collectively, the five HOA amounted RM554 million, all of which are to be financed through the issuance of CHHB shares. The vendors are deemed related parties by virtue of Tan Sri Lee's interest in these entities. According to CHHB, the corporate exercise is part of an ongoing transformation exercise which will also involve raising funds from the capital market and other digital initiatives to be announced in due course. Besides, Tan Sri Lee said the transfer of some of the "most attractive assets" under his private holdings to CHHB is to create immediate value in the Group as well as create a clearer line of separation between the listed entities and his private investments. This will also provide CHHB better foundation with which to expand the healthcare division and take the next step into its digital initiatives which will be revealed soon.

Echoing the view expressed by Tan Sri Lee, CHHB's managing director Datuk assets will ultimately create a clearer line between the controlling shareholders and the listed entity. "This is part of our overall transformation plan and will create a larger capitalisation, better value and greater economies of scale for CHHB," he added.

# Safeguards for minority shareholders

Although the Board is of the opinion that the corporate exercise is in the best interest of CHHB, minority shareholders who are opposed or not in favour of the exercise need not resort to pressing the panic button so abruptly. This is because the proposed acquisitions are still subject to the approval of CHHB's shareholders at an extraordinary general meeting (EGM) which will be convened on a later date. In all fairness, it will be too early at this juncture to jump to conclusions as to whether the whole corporate exercise will create value to shareholders or otherwise given more details and circulars are likely to be on the way as the parties involved may after all be 'tweaking the deal' to ensure it becomes more appealing to all shareholders. What is certain for now based on what the five HOAs entail is that a dilution effect to CHHB's shares is inevitable following the issuance of new shares to offset the acquisition costs for assets belonging to the CHHB's founder/family.

FHMH Corporate Advisory Sdn Bhd has been appointed as the independent adviser to advise the non-interested shareholders of CHHB on whether they should vote in favour of the Proposed Acquisitions and to comment on the fairness and reasonableness of the deal.

# Conclusion

The earnings per share has a direct correlation to share prices as compared to net assets or net tangible assets of a PLC. The increases in earnings tend to move the needle more directly in comparison to increases in net asset values. Given the current property overhang, injecting properties alone will not move the needle. As such, minority shareholders should look forward to the injection of profitable ventures as opposed to pure assets which do not have a profit track record. At the very least, profit guarantees will be a bit comforting to
