## **SHARIAH HOT STOCKS**

### Price & Volume Distribution Charts (as at Yesterday)

DEFINITION: Shariah compliant stocks with Technical Analysis showing 5-days & 10-days Moving Average Price below Yesterday's Close over past 3 days and with Volume Spike.

CHART GUIDE: Volume Distribution Chart is a statistical interpretation of the current sentiment on each stock in graphical format. The highest bar categorized as >150k is likely to be traded by institutions or super dealers, while the lowest bar categorized as <15k usually represents retail investors. "Buy Up" refers to more buyers snatching up the lots queued at selling price. "Sell Down" refers to sellers selling their shares to the buying queue

# DIGITAL-RELATED INVESTMENTS IN MALAYSIA HIT RM110B - MDEC CEO

ccording to Malaysia Digital Economy Corporation (MDEC) chief executive officer Mahadhir Aziz, Malaysia has facilitated RM110 billion in digital-related investments, almost double the target under the Malaysia Digital Economy Blueprint (MyDigital) initiative. Factors such as Singapore's moratorium on new data centres and the shift of data centre investment to Malaysia have helped the country achieve MyDigital's RM70 billion target earlier than 2025. A proposal to increase the overall long-term target from RM70 billion to RM130 billion has been sent to Prime Minister Datuk Seri Anwar Ibrahim.

MDEC's aspiration is for Malaysia to be ASEAN's digital heart, and to be known as the digital tiger of Asia. Following MDEC's recent investment and export mission with the Ministry of Communications and Digital to the United Arab Emirates (UAE), discussions with the emirates' property giant, Damac Group, are still in the early stages, as the group is exploring opportunities to invest in data centre business in this region.

## **MARKET SENTIMENTS**

Because of the good relationship between Malaysia and the UAE, Malaysia is the best place for Damac to consider. For any investments, whether it is a small outlay versus big data centre investments, it would take one to three years to be realised.

## MALAYSIA'S PPI BACK TO POSITIVE TERRITORY FOR FIRST TIME SINCE JANUARY - DOSM

According to Department of Statistics Malaysia (DOSM) Chief Statistician Datuk Seri Dr Mohd Uzir Mahidin, Malaysia's Producer Price Index (PPI), which measures the prices of goods at the factory gates, returned to positive territory for the first time this year since January, with a marginal y-o-y growth of 0.2% in September, compared to the 2.2% y-o-y contraction recorded in August.

This is the first increase after seven consecutive months of decline recorded from February, due to the higher base effect and higher prices of primary commodities. Notably, the marginal increase was contributed by all sectors except for the manufacturing sector.

The agriculture, forestry and fishing sector increased by 3.2% (August: -1%) due to the increase in animal production (5.7%) and growth of perennial crops (3.3%). The mining sector rose 6.9% after recording a negative 3.8% in the previous month, supported by higher extraction of crude petroleum (8.1%) and natural gas (2.7%). The two utility sectors recorded marginal increases, with the electricity and gas supply sector climbing 0.5% and the water supply rising by 0.9%. Meanwhile, the manufacturing sector remained negative for five consecutive months, recording a negative 0.8% (August: -2.3%), affected by manufacturing of coke and refined petroleum products (-7.1%) and food products (-5.3%).

On a month-to-month basis, Malaysia's PPI went up by 0.9% in September 2023, which was also an improvement compared with the 0.3% in August and 0.2% in July, pointing to three months of consecutive growth from June's 0.3% contraction. September's m-o-m performance was on the back of the growth in mining (5.6%), electricity and gas supply (0.4%), as well as the manufacturing sector, which increased by a slight 0.8% after recording negative changes since May.

## **MARKET SENTIMENTS**

FRIDAY OCTOBER 27 2023 Invest 23

However, this was offset by declines in agriculture, forestry and fishing, and the water supply sectors.

In comparison with some countries, he noted that the US recorded a 2.2% y-o-y growth in September against 2% in August, making it the highest growth since April. Japan's PPI also rose by 2%, slowing from 3.3% in the previous month. China's producer prices continued to decline by 2.5% from a drop of 3% in the previous month. Similarly, India's producer inflation registered a smaller contraction of 0.3%, compared with 0.5% in August.

Overall, Malaysia's PPI decreased by 2.1% in the first nine months of 2023 as compared to last year, due to the volatility of Malaysia's main commodities, particularly palm oil products and crude oil. Looking ahead 12 months, oil prices are projected to average US\$98 per barrel after the OPEC countries extended their voluntary supply cut of crude oil. Meanwhile, according to the Commodity Research Bureau (CRB) Index, overall commodity prices index increased from around 290 in June to 320 in September 2023, mainly driven by the increase in the price of crude oil. Other factors, such as the shortage of agricultural supplies due to the Russia-Ukraine war and adverse weather patterns, are expected to keep price of commodities unstable in 2023.

## **EYE ON THE MARKETS**

On Thursday (26Oct), the Ringgit closed at 4.7870 against the USD and 3.4900 to the Sing Dollar. On Monday (23Oct), the FBM KLCI opened at 1441.73. As at Thursday (26Oct) 5:00pm, the FBM KLCI closed down 1.13 points at 1440.60. Over in US, the overnight Dow Jones Industrial Average closed down 251.63

points (-0.76%) to 32,784.30 whilst the NASDAQ shed 225.62 points (-1.76%) to 12,595.61.

# OF FRACTIONAL SHARE TRADING AND ITS AFFORDABILITY

Devanesan Evanson

Chief Executive Officer, Minority Shareholders Watch Group n June this year, Prime Minister Dato' Seri Anwar bin Ibrahim announced a slew of capital market initiatives, including trading fractional shares on Bursa Malaysia. These are to make share trading on Bursa Malaysia more accessible, affordable, and inclusive for retail investors, particularly young investors.

By allowing retail investors to dabble in fractional shares, Securities Commission Chairman Dato' Seri Dr. Awang Adek Hussin said, individuals particularly the younger generation, will now have increased affordability and flexibility to trade and invest in the more expensive blue-chip stocks - at a fraction of the standard board lot value.

At the same time, Anwar also announced the reduction in stamp duty rate for shares traded on Bursa Malaysia, from 0.15% to 0.1% of the contract value, subject to a maximum cap of RM1,000 per contract. The stamp duty rate reduction lowers the cost of securities transactions to make the Malaysian stock market more competitive.

## **BROKERAGE FEES**

We welcome the above measures as these make investing more affordable and encourage share investing and trading amongst retail investors, particularly young investors. However, brokerage fees are a cost that may hinder share trading for some retail investors, especially when they buy and sell a small number of shares.

Generally, Malaysian brokerage firms charge minimum brokerage fees of between RM1 and RM28 per transaction, and this varies between broking houses. Assume that the minimum brokerage fee per transaction is RM8, the cost for young investor Mr. X to purchase one share of Nestle (Malaysia) Berhad would be:

Based on the illustration above, upon purchasing one Nestle share, Mr X will immediately make a 7% loss due to the transaction cost. Let's not forget that another round of transactional costs will be incurred when Mr X sells this one share of Nestle. All in all, Mr. X will need to make at least RM18 of gains, i.e., a 14% increase in Nestle's share price, to break even before profiting from it.

## CONCLUSION

All in all, the idea of fractional share trading is great, but the brokerage fee charges may render the initiative cost-ineffective unless brokerage

## FROM THE OBSERVER

fees are lowered or investors increase their amount of investment. But again, this would raise the concern of affordability.

The cost of transaction alone, without adding the risk involved in share investment and trading, may just put-off young investors from dabbling in shares. After all, the ultimate objective for investors is to grow their wealth. For fractional share trading to succeed, perhaps a smaller amount of brokerage fees can be charged. Low transaction costs may attract retail and young investors to participate in the stock market, leading to a higher volume of transactions.
