# **CAPITAL MARKET** STAKEHOLDERS SHOULD ALIGN FOCUS, **ASSESS IMPACT** TO BEST **CATER TO NEEDS - SC**

ccording to Securities Commission Malaysia (SC) executive director (Islamic capital market development) Sharifatul Hanizah Said Ali, while the Malaysian capital market is set to benefit from the projected domestic economic recovery, it is essential for the stakeholders to align focus and assess the impact to deploy different approaches and initiatives that best cater to the market's needs. The SC has produced the Capital Market Master Plan 3 (CMP3), a five-year strategic plan for the growth of Malaysia's capital market. The strategic initiatives over the next five years will be guided by key development and regulatory priorities. These strategic thrusts focus on catalysing competitive growth, empowering investors for a better future, and shaping a stakeholder economy, whilst embedding shared accountability, prioritising efficiency, and outcomes, as well as embracing technology. She said this in her keynote address at the ninth Malaysian Financial Planning Council e-Conference. The SC aims to facilitate a conducive environment to support investor empowerment and elevate financial literacy in line with the CMP3. The Malaysian capital market has remained resilient with a 3.0 per cent growth to RM3.5 trillion in 2021 from RM3.4 trillion in 2020. Notwithstanding the various challenges brought by the fluctuating economic conditions, the capital market continued to play its critical roles in financing

the economy with a notable increase in fundraising activities and encouraging the growth of the overall fund management industry. Total funds raised in the capital market remained robust, rising to RM130.9 billion in 2021 -- above the five-year pre-pandemic average of RM121.4 billion. It is imperative to raise the bar on professional standards and conduct requirements to enhance professionalism in the financial planning industry. The SC issued Guidelines on Conduct for Capital Market Intermediaries on April 1, which also applies to licensed financial planners to foster good business conduct and a good corporate culture that is centred on the fair treatment of clients and to promote trust in all intermediaries. While regulation can play a role to promote the right culture, the industry must also continue to shape the right behaviours within their own organisations. To this end, it is commendable to see the industry's harmonisation and elevation of the code of ethics and best practice standards by the relevant certification associations.

# MALAYSIA'S TOTAL TRADE SOARS TO NEW HIGH OF RM236.6BLN IN MARCH: DOSM

According to the Department of Statistics Malaysia (DOSM) chief statistician Datuk Seri Dr Mohd Uzir Mahidin, Malaysia's total trade recorded a double digit growth of 27.3 per cent year-on-year (y-o-y) in March 2022 to reach a new high of RM236.6 billion. Export and import values in March once again broke the record for all-time highs at RM131.6 billion and RM104.9 billion, respectively. Malaysia's imports surpassed the RM100 billion mark for the first time ever, in line with the surge in intermediate goods, signifying a positive sign of domestic economic activity. Trade surplus widened by 10.3 per cent from RM24.2 billion in the preceding year to RM26.7 billion, marking 23 consecutive months of trade surplus since May 2020. Malaysia's exports accelerated by 25.4 per cent from RM105.0 billion to RM131.6 billion, surpassing the RM100 billion mark for the seventh consecutive month since September 2021. Export value growth in March 2022 was supported by both domestic exports and re-exports. Domestic

exports were valued at RM106.9 billion, contributing 81.2 per cent to total exports, picking up strongly by 22.8 per cent y-o-y. Meanwhile, re-exports amounted to RM24.7 billion, expanded by 38.0 per cent compared to March 2021. Along with the export performance, imports also registered a strong growth of 29.9 per cent from RM80.8 billion to RM104.9 billion. In comparison to February 2022, the performance of total trade, exports, imports and trade surplus showed the increases of 28.1 per cent, 28.7 per cent, 27.3 per cent, and 34.8 per cent, respectively. An outstanding annual growth in exports was portrayed in 166 out of 255 commodity groups, showing increases compared to the same month of the previous year, led by thermionic valves and tubes. As for imports, 186 of 259 groups posted a positive growth. The rise in exports was attributable mainly to higher exports to Singapore (+RM5.1 billion), followed by Japan (+RM2.1 billion), South Korea (+RM1.8 billion), the European Union (+RM1.8 billion), China (+RM1.7 billion), Taiwan (+RM1.4 billion), Thailand (+RM1.4 billion), Indonesia (+RM1.4 billion), and the United States (+RM1.3 billion). On top of that, China was a key contributor to the increase in imports, which increased by RM3.4 billion, followed by Saudi Arabia (+RM2.9 billion), Taiwan (+RM2.8 billion), Indonesia (+RM2.5 billion), Singapore (+RM2.3 billion), the United States (+RM1.4 billion), and Thailand (+RM1.2 billion). The expansion of export was driven by electrical and electronics products (+RM13.0 billion); petroleum products (+RM4.6 billion); palm oil and palm oil-based agriculture products (+RM3.1 billion); liquefied natural gas (+RM2.5 billion); crude petroleum (+RM1.6 billion); and palm oilbased manufactured products (+RM1.1 billion). Meanwhile, the rise in imports were noted for electrical and electronics products (+RM7.1 billion); crude petroleum (+RM6.1 billion); petroleum products (+RM3.0 billion); chemical and chemical products (+RM2.2 billion); machinery, equipment and parts (+RM1.6 billion); metalliferous ores and metal scrap (+RM1.2 billion); and coal (+RM1.2 billion). On the performance for the first quarter of 2022, the total trade, exports, imports, and trade surplus continued to record strong double-digit growth. The total trade went up by 23.6 per cent, supported by the expansion in exports (+22.2) per cent), as well as imports (+25.2 per cent). Consequently, trade surplus recorded a higher value of RM65.1 billion.

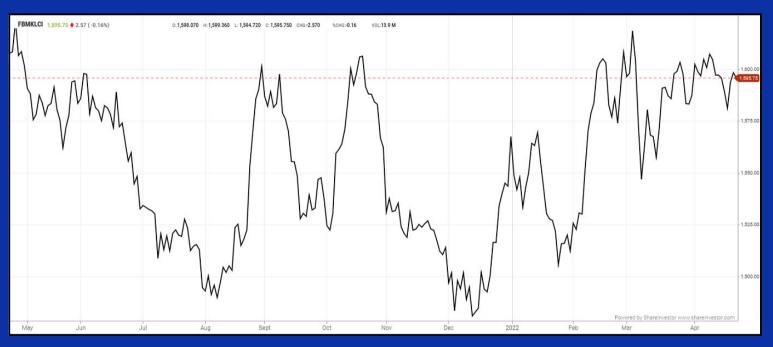

# LOCAL BOURSE MARKET CAP DOWN SLIGHTLY IN **MARCH AS INVESTORS BOOKED PROFIT - BURSA**

According to Bursa Malaysia, the total market capitalisation of the local bourse slightly moderated to RM1.795 trillion in March this year compared with RM1.81 trillion reported in the previous corresponding month. The reduction was due to investors booking their profit in the plantation and energy sectors, subsequent to the record high commodity prices last month. Meanwhile, foreign inflows further accelerated to RM3.29 billion in March as foreign investors turned net buyers in financial services, industrial and plantation sectors. However, foreign investors emerged as net sellers in the technology, telecoms and utility sectors. In March, total average daily volume further escalated to RM2.96 billion, with strengthened trading activities among foreign and local institutional investors. In terms of stocks, counters that saw the biggest foreign inflows were Petronas Chemicals Group Bhd (RM1.1 billion), Public Bank Bhd (RM935 million), Malayan Banking Bhd (RM348 million), Kuala Lumpur Kepong Bhd (KLK) (RM345 million) and Hong Seng Consolidated Bhd (RM174 million). Foreign investors further increased their stakes in plantation stocks with a total of RM962 million inflow in March, despite the moderation in crude palm oil price after hitting its peak last month. Meanwhile, local institutions sold RM692 million worth of plantation stocks, while local retailers offloaded RM181 million in the same month. The stock exchange also highlighted selected plantation stocks, such as KLK, which saw a RM345 million inflow by foreign investors, while local institutions took profit, resulting in an outflow of RM342 million.

# **EYE ON THE MARKETS**

This week, on Friday (22Apr), the Ringgit opened at 4.3060 against the USD from 4.2390 on Monday (18Apr). Meanwhile, the Ringgit was 3.1554 to the Sing Dollar on Friday (22Apr). On Monday (18Apr), the FBM KLCI opened at 1591.64. As

at Friday (22Apr) 10:00am, the FBM KLCI is down 4.70 points for the week at 1596.34. Over in US, the overnight Dow Jones Industrial Average closed down 368.03 points (-1.05%) to 34,792.76 whilst the NASDAQ shed 278.41 points (-2.07%) to 13,174.65.

# EXCEPTIONAL UNCERTAINTY

Pankaj C Kumar

Pankaj is a former **CIO** and Head of Research, presently focused on economic, market and corporate analyses. The views expressed here are entirely the writer's own.

hose were the exact words used by the World Bank in assessing the current global economy as the world body slashed its growth estimate to just 3.2% from 4.1% predicted just three months ago. The lowered estimates may be subjected to further downgrades if the war in Ukraine takes a longer time horizon to be resolved. The cut in global GDP forecast this time is mainly from the lower economic growth expectations for Europe and Central Asia, which includes Russia and Ukraine.

The International Monetary Fund (IMF) too had a similar assessment of the global economic outlook as it slashed the GDP growth forecast to 3.6% from 4.4% estimated in late January this year. The US GDP growth is expected to see a slower growth of 3.7% this year from the earlier estimate of 4%, while the Chinese economy is expected to grow 4.4% from the previous forecast of 4.8%. IMF also expects this year's inflation to rise much quicker, with a forecast of 5.7% for advanced economies and 8.7% for emerging and developing countries. According to the IMF, this will likely lead to a more aggressive tightening by central banks globally.

# **ECONOMY**

Out of the US, the University of Michigan's preliminary April Consumer Sentiment Index rose to 65.7, which was a significant jump from the preceding month's print of 59.4. Meanwhile, the March Existing Home Sales fell by 4.5% y-o-y to an annual rate of 5.77mil but still ahead of the market's forecast of 5.75mil. China's 1Q GDP data came in well above expectations as the world's second-largest economy grew by 4.8% y-o-y, beating the forecast of a 4.4% expansion. Two key March economic data points too were surprisingly better than expected as Industrial Production grew by 5% y-o-y against a forecast of a 4.5% increase, while the cumulative 1Q Fixed Asset Investments jumped 9.3% y-o-y. However, the key March Retail Sales data was weaker than expected as it fell by 3.5% y-o-y, well below the expected 1.6% contraction. China also unveiled a 23-point plan to support the economy, especially after extended lockdown periods seen damaging businesses.

On rates, Bank Indonesia held its benchmark 7-day reverse repurchase rate unchanged at 3.5% to provide continuous economic support. The bank also lowered the GDP growth forecast by 20bps to a range of between 4.5%-5.3% from the previous estimate of between 4.7%-5.5%, on the back of slowing global growth and lower consumer spending due to higher food and energy prices. Meanwhile, the People's Bank of China (PBoC) left its key 1-year Loan Prime Rate (LPR) and the 5-year LPR unchanged at 3.7% and 4.6% respectively.

Locally, the Employees Provident Fund revealed that it had received 5.3mil applications under the Special Withdrawal scheme, which will see members withdrawing RM40.1bil from their retirement fund. Together with the earlier withdrawal schemes amounting to RM101.1bil, members have so far withdrawn RM141.2bil from their savings. As the new minimum wage is closer to the effective date, the Ministry of Human Resources has reiterated that it will proceed with it despite objections made by several quarters. However, the new wage order will not be imposed on several sectors including the informal sector as well as companies that employ less than five workers. The Minister did not name which sectors will be exempted from the new minimum

wage order. Meanwhile, in economic data points, Malaysia's exports for March 2022 surged 25.4% y-o-y to RM131.6bil while imports rose by 29.9% to RM104.9bil. Trade surplus showed a growth of 10.3% to RM26.7bil. For the 1Q 2022 period, Malaysia's export performance was spectacular as exports jumped 22.2% to RM345bil while imports rose by 25.2% to RM279.9bil. The total trade surplus increased by 10.9% or RM6.4bil to RM65.1bil.

# **CORPORATE**

The Malaysian Anti-Corruption Commission (MACC) has issued a freeze order on all of the bank accounts owned by Caely Holdings group of companies. In response, the company said that it is not aware of any wrongdoings and will seek further clarification from the MACC to unfreeze the accounts. In other news and as expected, the vendors for the four urban highways have all accepted the offer made by Amanat Lebuhraya Rakyat (ALR). In contract news, Permata Rebana & Vizione Holdings JV has won a RM654m contract to build Social Security Organisation's (SOCSO) National Robotics and Cybernetics Rehabilitation Centre (Phase 1) in Bandar Meru Raya, Perak.

# **EQUITY**

Global equity markets were mostly firmer the past week despite the dimmer outlook on growth as painted by both the World Bank and the IMF. Markets that closed on a positive note saw gains of between 0.1% to as much as 1.8% on the Euro Stoxx 50 Price Index, while markets that retreated during the past week witnessed losses of between 0.7% to 4.5% on the Shanghai Stock Exchange Composite Index. Stocks on Bursa Malaysia closed the holiday-shortened week on a flat note with the KLCI last seen at 1,598.32 pts, up 2.62 pts or 0.2% for the week in review. For the week ended April 21, after weeks of net buying interest, foreign market participants turned net sellers with an outflow of RM7mil. Local institutions too maintained their net selling pressure with a smaller outflow of RM6.9mil. This left the retail market participants as the sole net buyers in the market with an inflow of RM13.9mil.

# **EYE ON WEEK AHEAD**

Later today, the Department of Statistics will be releasing the March 2022 Consumer Price Index (CPI) data as the market will be looking for any hints of potential inflationary pressure, especially with respect to core inflation, which increased by 1.8% y-o-y in February. The S&P Global Flash Eurozone Composite PMI for April is also due later today and the market will be looking at further evidence of actual weakness in this key barometer which will likely confirm the full impact of the war in Ukraine.

Next week, on Tuesday, April 26, the US Durable Goods Order for March is due, with the consensus looking for an increase of 1% m-o-m, after falling 2.1% in the preceding month. On the same day, data from the US New Home Sales are expected to be released with the market expecting a slight uptick to an annual rate of 776,000 from 772,000 in the previous month. Meanwhile, the Conference Board's US Consumer Confidence for April too will be released. On Wednesday, April 27, the US Pending Home Sales data is expected to be out, while the Bureau of Economic Analysis (BEA) will be releasing the annualized rate of the US 1Q GDP on Thursday, April 29. Consensus is expecting a sharp pullback in growth to just 1% for the 1Q period against the stellar 6.9% growth achieved in the 4Q period of 2021 and 6.1% growth for the same quarterly period in 2021.

Locally, on Monday, April 25, Bank Negara Malaysia will be releasing Malaysia's international reserves position as at April 15, 2022. On Thursday, April 28 the Producer Price Index-Local Production for March is due. Economists will again be watching the data to see further price pressures at the manufacturers' level as the gauge rose by 9.7% y-o-y for February 2022.

# **AVOID OVERBOARDING:** DON'T BITE OFF **MORE THAN YOU** CAN CHEW

Devanesan Evanson

**Chief Executive** Officer, Minority **Shareholders Watch** Group

et against the backdrop of increasing responsibilities and workload for board members – in particular, time commitment and how this impacts board performance as well as conflicting interest - overboarding has become a sensitive topic in the realm of today's corporate governance. The US Institutional Shareholder Services (ISS) has described the surge in average time commitment for board directors as having "exploded". One of the important issues with regard to time constraint is the inability for overboarded directors to squeeze in last-minute emergency board meetings to deliberate on pressing issues. Towards this end, ISS recommends shareholders to vote against or withhold their votes for individual directors who serve on more than five public company boards.

Governance services provider Glass Lewis followed the precedent set by ISS by stating that it intended to review closely board director commitments by considering their concerns regarding non-executive directors who have served on more than five boards. As for directors in executive position at public listed companies

(PLCs), Glass Lewis recommends that they do not serve on more than a total of two boards

# **FULL-TIME/PART-TIME EMPLOYEES**

Unlike independent non-executive directors (INEDs), executive directors are full-time employees who are hired with salary while holding a board position. Typically, they work for the company in a senior capacity which is mainly associated with policy concerns or functional areas of primary strategic importance (e.g., finance, human resources or project management). They are elected to the board by the Nomination Committee or by the company's board itself whereby their role is to formulate and implement strategies which are not just cost-efficient but time-efficient as well.

Contrast this with the flexibility enjoyed by INEDs who do not participate in the management and operation of the company but play a crucial role in the formulation of policies and plans, and decision making of the company. In a way, INEDs can be assumed to be "part-time employees" whose board appointment is based on their qualification such as depth of knowledge and breadth of experience which helps the board in availing relevant insights and building contacts. Given there are fewer timing constraints in discharging their duties, INEDs can sit on a few boards (up to a limit of five as per ISS and Glass Lewis' recommendation and as per Bursa Malaysia Listing Requirements) so long as they are able to keep a well-planned meeting schedule or abstain from indulging in conflict of interest

# **PROS AND CONS**

Whether one is an executive director or INED, there are mixed views about overboarding among corporate governance practitioners. One school of thought opines shareholders are the ultimate beneficiaries as participation on less boards enable directors to sharpen their focus on value enhancement.

Three primary concerns contribute to the renewed interest in director overboarding:

## RISING BOARD RESPONSIBILITIES:

This has led to directors being expected to dedicate more time to their duties. A wide variety of issues is driving the expanding mandate, i.e., increasing regulatory requirements, expectations for shareholder engagement, cybersecurity threats, disruptive technologies, climate change, human capital management, and company culture.

# • INVESTOR STEWARDSHIP EFFORTS ARE GETTING MORE SOPHISTICATED AND INTENSIFIED:

As asset owners and asset managers dedicate more resources to monitoring corporate governance risks while emphasising on board quality, overboarding becomes a critical issue along with board diversity, director qualifications, and board refreshment.

## INFORMED INVESTORS:

As disclosures on outside board mandates are better databased, investors are able to apply complex criteria to overboarding policies that go beyond just the number of board mandates but also take into account individual roles and responsibilities.

Nevertheless, another school of thought believes that there are distinct advantages to having directors who sit on multiple boards in terms of:

## SHARING VALUABLE KNOWLEDGE:

Board members with multiple board seats can contribute key knowledge and contacts that are sometimes essential to move forward. They can do so without being unethical.

# IMPROVED AGILITY:

Directors with experience of sitting on several boards have the right mix of 'scaling' expertise and industry partnerships to help chart a profitable path forward.

## A BROADER PERSPECTIVE:

Directors who hold multiple roles learn to work more closely with other directors, develop greater self-awareness and become more effective at governance.

Locally, a director can only serve on a maximum of five PLCs as per Bursa Malaysia Listing Requirements. What minority shareholders must bear in mind is that not all PLCs are created equal – there are PLCs that demand much more time compared to other PLCs. And as such, directors may not be able to do justice to the PLCs that they sit on if the PLCs on which they sit are all 'demanding PLCs' or even if most of them are such 'demanding PLCs'. Directors, on their part, must exercise much self-discretion and self-evaluation to see if they are able to afford the time and energy required when they sit on several PLCs. And this again, against the backdrop of the several other unlisted companies and organisations on which they may sit. Executive directors (EDs) are deemed as full-time jobs and as such, it is difficult to imagine how an ED can serve as such on more than one PLC. In a way, this may give rise to conflict of interest when it comes to the time to be spent on a PLC

# CAELY RESORTS TO FORENSIC AUDIT PROBE TO **ASCERTAIN FINANCIAL IMPACT**

As the Securities Commission's (SC) Audit Oversight Board (AOB) is calling for audit committees (AC) of PLCs to continuously and rigorously engage auditors to promote an effective audit process, Perak-based lingerie manufacturer Caely Holdings Bhd has gone a step further to appoint an independent forensic auditor to investigate allegations of suspicious and irregular transactions at one of its subsidiaries. The appointment of Virdos Lima Consultancy (M) Sdn. Bhd, an independent forensic auditor was announced by Caely on 7 April 2022. Subsequently, in a filing in response to Bursa Securities' request for additional information on its forensic audit exercise, Caely said, it shall update accordingly on the forensic audit investigation progress. "Upon receipt of the forensic audit report, the company will take all necessary recourse available under the law upon taking further legal advice," it said. For now, it is unable to ascertain the financial and operational impact of the matters until the investigation is completed. The forensic probe is slated for completion by 31 May.

In the circumstances leading to the forensic investigation, Caely said one of the group's independent non-executive directors had received an anonymous package containing documents raising concerns about several suspicious transactions involving Caely's wholly-owned unit, Caely (M) Sdn Bhd (CMSB).

Earlier, Caely's external auditor PKF Malaysia had issued a qualified opinion on the group's audited financial statements for the year ended 31 March 2020 in relation to CMSB's ability to recover certain receivables. The auditor noted that CMSB had trade receivables of close to RM12 million as of 31 March 2020 related to construction works for Felcra Bhd which were completed on 28 February 2018. However, only RM250,000 in repayment had been received by the company since completing the works which it attributed to the change of government and the COVID-19 pandemic. As all payments for the construction have been delayed, PKF is of the view that with the prolonged delay, the carrying amount of trade receivables might be impaired due to uncertainty over the recoverable amount. "We are uncertain of the full recovery of certain trade receivables of the group amounting to RM11.995 million as at financial year end as a substantial amount on the completed constructions payments have not been received," justified the external auditor. PKF added: "We were unable to obtain sufficient and appropriate audit evidence on the impairment assessment of the above-mentioned carrying amount of the said receivables in accordance with MFRS 9 Financial Instruments. Consequently, we were unable to determine whether any adjustments to these amounts were necessary."

# **AXIATA GROUP BERHAD**

**Axiata Group Berhad** 

(AXIATA) is pleased to announce that ISOC edotco Towers, Inc, a wholly owned subsidiary of edotco Group Sdn Bhd which in turn is a 63.0% owned subsidiary of Axiata, had on 19 April 2022 entered into a Sale and Purchase Agreement with Smart Communications, Inc. and Digitel Mobile Philippines, Inc. for the acquisition of 2,973 telecom towers and related assets in the Philippines for a total purchase consideration of PHP42,000 million (equivalent to RM3.42 billion).

# HEINEKEN

# **HEINEKEN MALAYSIA BERHAD**

The Board wishes to inform that HEINEKEN Malaysia Berhad (HEIM) has scheduled to release its financial report for the first quarter ended 31 March 2022 on Wednesday, 11 May 2022. Details on the Company's performance for the said period will be reported thereon. We refer to the financial results for the first quarter ended 31 March 2022 released by Heineken N.V. on 20 April 2022 which encapsulates, among others, the following commentary:

"In Malaysia, beer volume increased in the low-twenties versus last year and ahead of 2019, benefitting from relatively lower COVID-related restrictions in the market. The premium portfolio outperformed, led by Heineken."

# **HSS ENGINEERS BERHAD**

HSS Engineers Berhad (HSSEB) wishes to announce that on 15th April 2022, HSS Integrated Sdn Bhd, an associate of HSS Engineers Berhad, has accepted a Letter of Appointment from Mass Rapid Transit Corporation Sdn. Bhd. appointing HSS Integrated Sdn Bhd to provide peer review consultancy services for:

- (a) Tender Documentation for Civil Main Contractor; and
- (b) Tender Documentation for Line Wide Systems Contractor; for "Projek Mass Rapid Transit Laluan 3: Laluan Lingkaran".

The role of HSS Integrated Sdn Bhd is to undertake an independent review and provide an endorsement that the said Tender Documentation are in compliance with requirements prescribed by Mass Rapid Transit Corporation Sdn Bhd.

# **KEJURUTERAAN ASASTERA** BERHAD

The Board of Directors of Kejuruteraan Asastera Berhad (KAB) wishes to announce that KAB

Telco Sdn. Bhd. a wholly-owned subsidiary of the Company had on 20 April 2022, entered into A Term Sheet dated 20 April 2022 with MRH Empire Sdn. Bhd. to form a joint venture in respect of the identified projects and prospective projects to expand into the telecommunication infrastructure sector.

# **MALAYAN BANKING BERHAD**

On behalf of the Board of Malayan Banking Berhad (MAYBANK) wishes to announce that Maybank

has allotted and issued 91,500,212 new Maybank Shares on 14 April 2022 pursuant to the 22nd Dividend Reinvestment Plan. The said new Maybank Shares were listed and quoted on the Main Market of Bursa Securities with effect from 9:00 a.m. on Friday, 15 April 2022. With the listing of the said new Maybank Shares, the enlarged issued share capital of Maybank comprises 11,970,013,430 Maybank Shares.

# STEEL HAWK BERHAD

The Board of Directors of Steel Hawk Berhad (SKHAWK) is pleased to announce that the Company has incorporated a wholly-owned subsidiary known as Steel Hawk Defence Sdn. Bhd. on 18 April 2022 with an issued share capital of RM100,000.00 comprising 100,000 ordinary shares of

RM1.00 each. The subscription of shares in Steel Hawk Defence will be funded wholly from internally generated funds of Steel Hawk.

The intended principal activities of Steel Hawk Defence are as follows:-

- (1) Supply, maintenance, design, sales, technical training for defence engineering equipment;
- (2) Supply and maintenance of safety gear products/devices and other support services; and
- (3) Service provider of fire and explosion protection systems.

28th April 2022
