# MEDIAN WAGES OF FORMAL CITIZEN **EMPLOYEES ROSE BY 4.9% IN JUNE** 2023 TO RM2,600 AS COMPARED TO JUNE 2022 - DOSM

ccording to the Department of Statistics Malaysia Chief Statistician, Dato' Sri Dr Mohd Uzir Mahidin, the median wages of formal citizen employees rose by 4.9% in June 2023 to record RM2,600 as compared to June 2022. The compilation of these statistics is based on administrative data sources obtained from relevant agencies, which focus on the citizens who work in the formal sector, notably in the private sector.

Commenting further on the report, he said that the number of Malaysian formal employees in June 2023 was 6.60 million persons, an increase of 1.6% compared to the same month in the previous year. This number accounted for nearly two-thirds (64.3%) of the total citizens-paid employees in the formal sector.

In the meantime, the median monthly wages in June 2023 increased by 4.9% y-o-y to register RM2,600. Looking at the comparison by gender, male formal employees comprised 55.5% (3.66 million persons) of the total formal employees in June 2023, received higher median monthly wages than females. The median monthly wage for male formal employees stood at RM2,645 while female formal employees who made up 44.5% (2.94 million persons) of total formal employees earned RM2,527.

Looking at detailed wages statistics by age group indicates the group that recorded the highest median monthly wages in June 2023 was 45 to 49 years which received RM3,500. This age group also received the highest median monthly wage in April 2023 (RM3,582) and May 2023 (RM3,482). Comparing June 2023 to the same month in the previous year, all age groups experienced an increase in median monthly wages, except for those below 20 years.

The age group 60 to 64 years demonstrates the highest year-on-year growth in June 2023 which increased 11.7% to RM2,764. Meanwhile, in April 2023, the age group below 20 years enjoyed the highest y-o-y growth (25%), the highest for four consecutive months since January 2023. However, the age group below 20 years recorded slower growth of median monthly wages in May 2023 (y-o-y growth: 5.5%) and stagnant in June 2023 (y-o-y growth: 0.0%) due to the base effect of the implementation of the new minimum wage rate of RM1,500 in 2022 had subsided. ## LOCAL FINANCIAL MARKETS AFFECTED BY GLOBAL **INVESTOR SENTIMENTS IN OCTOBER 2023 - BNM**

According to Bank Negara Malaysia (BNM), domestic financial markets were mostly affected by global investor sentiments last month. The

global financial conditions were influenced mainly by the rise in the 10-year US Treasury yield as strong US economic data led to growing investor expectations of a higher policy rate environment. Against this backdrop, the 10-year Malaysian Government Securities yield increased by 14bps in October (regional average: +22 bps) while the Ringgit depreciated by 1.6% against the US dollar (regional average: -0.3%). The central bank observed this in its latest monthly financial and economic highlights. Meanwhile, the FTSE Bursa Malaysia KLCI rose by 1.3% amid improved domestic equity market sentiments post-Budget 2024.

Banks remained well-capitalised to support economic growth. Capital ratios were broadly stable, supportive of banks' financial intermediation activities and bolstering their ability to withstand unexpected losses. The banking system's excess capital buffer remained healthy at RM132.6 billion in October. The banking system continued to record healthy liquidity buffers with the aggregate liquidity coverage ratio at 150.8% (September 2023: 151.5%). The aggregate loan-to-fund ratio remained largely stable at 82.2% (September 2023: 82.5%).

Credit to the private non-financial sector grew by 4.2% as at end-October (September 2023: 4.2%), underpinned by higher outstanding household loan growth amid slower growth in credit to businesses. Outstanding business loans expanded by 1% in October (September 2023: 1.6%), due mainly to more moderate growth in working capital loans among non-small and medium enterprises (non-SMEs). Growth in outstanding loans to SMEs, however, remained forthcoming at 6.9% (September 2023: 6.7%). Growth in outstanding corporate bonds, meanwhile, was sustained at 5%.

For households, outstanding loan growth improved slightly to 5.6% (September 2023: 5.4%), supported by higher growth across most loan purposes. This reflected higher demand for household loans, particularly for the purchase of houses, cars and personal use.

# BEYOND THE **BOARDROOM:** DIRECTOR STEPS FORWARD WITH DERIVATIVE ACTION

Devanesan Evanson **Chief Executive** Officer, Minority **Shareholders Watch** Group

he Malaysian stock market encountered a rather unusual or probably unprecedented event recently whereby a company director commenced derivative proceedings against individual directors and management of the company (the Parties) for alleged breaches of fiduciary duties. The involved entity, Malaysian Genomics Resource Centre Bhd (MGRC), received an Originating Summons (OS) on 25 October 2023 from one of its independent non-executive directors (ID/the Applicant) to commence derivative proceedings under Section 347 and Section 348(2) of the Companies Act 2016 (CA2016), in the name of MGRC, against individual directors and management of the Company for alleged breach of fiduciary duties.

In its reply to a query from Bursa Malaysia on 9 November, MGRC disclosed that the OS is about certain transactions entered into by the Company and its subsidiaries with external parties. The following claims were made against MGRC's board and relevant officers of the Company for breaching their fiduciary duties:

- The obtaining of approval from the board prior to executing certain transactions.
- The directors have failed to exercise their duty of supervision of control and failed to make the necessary disclosure at the material time.
- The MGRC board have voted to change the company's financial year end (from 30 June 2023 to 31 December 2023) instead of resolving the audit issues highlighted by its external auditors.
- Lack of management and disclosure in the operational and financial management of the company.

Subsequently, on 16 November, MGRC filed an Affidavit in Reply and a Supplementary Affidavit in Reply in response to the OS at the Shah Alam High Court. Both affidavits defended MGRC's stand with the view that the Applicant is not acting in good faith and for the best interest of the Company, as the parties concerned have taken the necessary steps to review all the affected transactions in ascertaining the next best move to be taken for the best interest of the Company and its stakeholders. Apart from the potential costs which may be awarded against the Company and the corresponding legal costs, MGRC said other costs in relation to it have yet to be determined. A case management was fixed on 23 November by way of e-review.

## **DERIVATIVE ACTION**

Simply put, derivative action is an action brought by a shareholder or director of a company in the name of and on behalf of that company in respect of wrongs done to the company. Often, derivative actions

are brought to enforce any infringement of the company's right when the board of directors refuses to do so. It intends to remedy the wrongdoings committed by the board of directors or its major shareholders. Shareholders or directors could pursue this when a board of directors refuses to pursue or defend actions against harm done to the company by other third parties.

While IDs owe fiduciary duties to the company like other directors, they play a unique role in safeguarding the interests of minority shareholders. If they deem that other directors have breached their fiduciary duties or harmed the company, pursuing a derivative action may be seen as a responsible and necessary step. Derivative actions bolster accountability within a company, serve as a deterrent against future misconduct and reinforce the principles of transparency and accountability in corporate governance.

Conversely, the potential legal liability arising from derivative action encourages IDs to champion and uphold high ethical standards within the organisation. It underscores the importance of active oversight to minimise financial risks and legal repercussions.

Before pursuing a derivative action, IDs should demonstrate that they have exhausted internal remedies within the company, such as bringing their concerns to the attention of the board or attempting to rectify the issues through internal processes. If the dispute involves legal claims, breach of conduct or issues that cannot be resolved in the boardroom, it may be necessary to take the matter to court.

IDs are tasked with oversight and governance roles, ensuring the company is in good hands. The unprecedented steps taken by the director of MGRC may inspire IDs to play a more active and vigilant role in corporate governance.

## HEINEKEN Malaysia Remains Agile Amidst Weak Consumer Sentiment and Challenging Market Outlook

Heineken Malaysia Berhad announced its financial results for the third quarter ended 30 September 2023, reporting a decline in revenue and net profit due to weak consumer sentiment driven by rising cost of living and macroeconomic concerns. In the third quarter, Group revenue decreased by 17% as compared to the same quarter in 2022, mainly due to lower sales arising from weak consumer sentiment driven by rising cost of living and macroeconomic concerns. The Group had a strong base in the third quarter of 2022 as the market had an upsurge in sales (Revenue +85% versus the third quarter of 2021), following the reopening of the economy and international borders at the start of the endemic phase. The Group views this quarter's performance as a continuation of the form of market correction as reported in the previous quarter's report. Group profit before tax ("PBT") decreased by 27% alongside with lower revenue, mitigated by efficiency gains through cost and value initiatives.

For the nine-month period, Group revenue was 7% lower mainly due to weaker consumer sentiment attributed to growing macroeconomic concerns and the strong rebound in 2022, buffered by higher sales in the first quarter due to Chinese New Year festive period. Group PBT declined by 14% principally due to lower revenue and relatively higher promotional and marketing expenses incurred during the period.

Commenting on the results, Roland Bala, Managing Director of HEINEKEN Malaysia, said, "2023 remains challenging as the market goes through corrections following the rebound in 2022 coupled with weaker consumer sentiment due to macroeconomic concerns. Nevertheless, our One Strong Winning Team remains agile and resilient. We continued our focus to deliver against our EverGreen strategy to future proof our organisation whilst navigating the challenges in this soft period."

The Board of Directors does not recommend any dividend in respect of the quarter ended 30 September 2023. On outlook, Roland shared, "In light of cautious consumer spending due to macroeconomic concerns, we anticipate the market to remain challenging. The Group will remain agile in the volatile business environment and will continue to focus on our EverGreen strategy to future-proof the business. In the absence of the one-off Prosperity Tax, we also look forward to a positive impact on the Group's net profit this year."
