#### Price & Volume Distribution Charts (as at Yesterday)

**Technical Analysis** 

DEFINITION: Shariah compliant stocks with Technical Analysis showing 5-days & 10-days Moving Average Price below Yesterday's Close over past 3 days and with Volume Spike.

CHART GUIDE: Volume Distribution Chart is a statistical interpretation of the current sentiment on each stock in graphical format. The highest bar categorized as >150k is likely to be traded by institutions or super dealers, while the lowest bar categorized as <15k usually represents retail investors. "Buy Up" refers to more buyers snatching up the lots queued at selling price. "Sell Down" refers to sellers selling their shares to the buying queue

ShareInvestor WebPro > Screener > Market Screener (FA &

# **GROWTH OF** MALAYSIA'S ISLAMIC BANKS **OUTPACING** CONVENTIONAL PEERS - MOODY'S

ccording to Moody's Financial Institutions Group analyst Wong Chong Jun, the growth of Islamic banks in Malaysia has outpaced its conventional peers, with penetration growing tremendously over the past 10 to 15 years and now accounting for around 40% of the total financing in Malaysia. The penetration rate stood around 20% around 10 to 15 years ago.

Islamic banking growth in Malaysia is mainly driven by government policies as well as the 'Islamic First' strategy employed by the banks. He was speaking at the 2023 Global Islamic Finance Industry Update Media Roundtable held online on Oct 11.

On the "Islamic First" strategy, which essentially means prioritising Islamic banks and Islamic products, it was observed that there had been a significant increase in Islamic banking products market share in Malaysia's major banks. A look at the breakdown of loans just for Maybank in Malaysia, Islamic financing shows that it contributed around 70% of the loans. This proportion was actually at around 60%

just a couple of years ago, prior to the (Covid-19) pandemic. Looking at another major bank in Malaysia, RHB, the proportion has increased to around 45% from 40% over the same period.

The government has been very supportive of Malaysia's Islamic banking industry, which has been reflected in the multiple policies announced and implemented over the past few years. Among the policies enacted include the value-based intermediation framework established in 2018 and the Halal Industry Master Plan 2030, which was released earlier this year. In addition to that, in the Madani Economy, there are plans for Malaysia to be a leader in Islamic financing. Even for digital banks, the allocation was two out of five for Islamic digital banks. It is very clear that the government is taking steps to enhance and to develop the Islamic banking market in Malaysia.

## MALAYSIA'S FIRST 5G-POWERED AI WAREHOUSE POWERED BY CELCOMDIGI AND DHL SUPPLY CHAIN

Malaysia's first 5G-powered Artificial Intelligence (AI) Autonomous Inventory Management System powered by CelcomDigi Bhd in collaboration with DHL Supply Chain Malaysia was launched by Communications and Digital Minister Fahmi Fadzil on October 12. Supported by CelcomDigi's 4G LTE network and 5G connectivity at DHL's Integrated Logistics Centre, the warehouse is equipped with the latest AI and robotic solutions for optimised and efficient inventory management.

According to Fahmi, the synergy between CelcomDigi and DHL which utilises the real value of 5G technology and solutions, together with Al and robotics is commendable and on the right track for driving the growth of the nation's digital ecosystem. Aligned with the government's digital aspiration, Malaysia has the potential to be the Asian Digital Tiger as collaborations such as this will potentially expand and significantly enhance the efficiency, innovation, technology adoption in Malaysian enterprises and the nation's digital economy. He was speaking while officiating at the launch.

The warehousing and logistics industry has the potential to be reimagined and transformed into a "lights-out" warehouse, being able to operate around the clock by utilising 5G technology and AI solutions. He was pleased to note that this implementation will not stop here and both organisations are committed to expanding the adoption of 5G technology and solutions across DHL warehouses nationwide as well as potentially collaborating with organisations from other industries. With innovation and technology being utilised within and across industries, he looks forward to more digital transformation initiatives.

CelcomDigi's collaboration with DHL leverages 5G technology and Al solutions for robotic inventory management systems, providing an enhanced and efficient multi-storey warehouse management at optimum standards. The solution will enable efficient stock counting operations, achieving up to 20 times efficiency with up to 100% precision and accuracy, enhancing space utilisation within the warehouse and reducing daily electricity consumption.

He added that DHL is currently working on 25 warehouses across the country and is building a warehouse in Bayan Lepas, Penang that will operate as a fully automated facility using the latest 5G technology. He hopes more companies will identify and understand the benefits of 5G technology to their respective industries to help improve business efficiency and productivity.

## PIKOM EXPECTS STRONG CONTRIBUTION FROM **DIGITAL ECONOMY IN 2023, 2024**

According to the National Tech Association of Malaysia (PIKOM) deputy chairman Alex Liew, Malaysia's digital economy is anticipated to contribute 24.4% to GDP in 2023 and rise further to 25.5% in 2024. The momentum will hold its strength amid the national economy forecast to grow 4.5% in 2024.

Speaking at a press conference on Malaysia's Digital Job Market and Economic Outlook 2023/2024 on October 12, he said the robust escalation of the digital economy, even amid global economic upheavals, has cemented its position as a crucial pillar of Malaysia's economic structure.

On the employment front, the digital job market has witnessed doubledigit growth in tech salaries, mirroring an economy that is judiciously harnessing technology for heightened efficiency and productivity.

Meanwhile, according to PIKOM advisor and research chair Woon Tai Hai, the tech sector has experienced a notable y-o-y salary growth of 13.9% in 2023, a stark contrast to the two per cent percentile range growth observed in the previous two years. PIKOM is projecting a 4.13% salary growth for 2024 in the sector, and an average annual growth rate of 6.45% over the next decade.

He attributed this to the intensified competition for talent, the repatriation of skilled professionals post-pandemic, a weakening Ringgit, accelerated digital transformation in the private sector and forward-thinking government policies.

PIKOM's chief executive officer Ong Kian Yew said the benchmarking of technology salaries is pivotal as it serves as a lens through which Malaysia's competitive standing within the global and regional tech landscapes can be viewed, thereby nurturing innovation and informed policy-making. PIKOM's membership comprises more than 1,000 companies involved in tech products and services which command 80% of Malaysia's total tech business.

## **EYE ON THE MARKETS**

On Thursday (120ct), the Ringgit closed at 4.7170 against the USD and 3.4627 to the Sing Dollar. On Monday (090ct), the FBM KLCI opened at 1417.06. As at Thursday (120ct) 5:00pm, the FBM KLCI closed up 26.76 points at 1443.82. Over in US, the overnight Dow Jones Industrial Average closed down 173.73

points (-0.51%) to 33,631.14 whilst the NASDAQ shed 85.46 points (-0.63%) to 13,574.22.

# TIMELY MATERIAL INFORMATION DISCLOSURE

Devanesan Evanson

**Chief Executive** Officer, Minority **Shareholders Watch** Group

ursa Malaysia Securities recently publicly reprimanded a listed company and imposed fines on some directors for breaches of listing requirements over the Company's reply to an unusual market activity (UMA) query on some contracts and acquisitions. Bursa Securities, as the front-line regulator, had issued a UMA query in relation to some unusual market activity in the shares of the Company. In response to the UMA query, the Company had stated that it was unaware of any corporate development relating to its business and affairs, including those in the stage of negotiation or discussion, that had not been previously announced which might account for the UMA.

Bursa Securities found that "the UMA response was not factual, inaccurate and did not contain sufficient information for investors to make

informed investment decisions,". It also noted that the Company had denied knowledge of the negotiation on the proposed acquisitions, although the proposed acquisitions had been approved in principle by the Board some two weeks earlier. The Exchange Operator pointed out that approximately two weeks after the UMA response, the Company had announced a memorandum of collaboration to undertake contracts and proposed acquisitions. "Bursa Securities views the breach seriously as the requirement to ensure timely and accurate disclosure of material information is fundamental to ensure the investors and public are kept fully informed of and have equal access to all material information to facilitate informed investment decisions. This is critical towards building and maintaining corporate credibility, market integrity and investor confidence," it stressed.

## WHY TIMELY DISCLOSURE

Timely material information disclosure by public listed companies is a critical aspect of maintaining transparency, ensuring fair markets, and upholding investor trust. This practice involves promptly and accurately disseminating information that could impact the company's stock price, financial performance, or strategic direction to the public.

The reasons and the importance of timely material information disclosure are manifold.

## TRANSPARENCY AND INVESTOR CONFIDENCE

Timely disclosure fosters transparency by providing investors with accurate and upto-date information about a company's financial health, operations, and strategies. Investors can make informed decisions, which in turn builds confidence in the financial markets. GIGO stands for Garbage In, Garbage Out - the informed investor decision is only as good as the veracity, completeness, and truthfulness of the announcements.

## FAIR AND EFFICIENT MARKETS

Rapid dissemination of material information ensures that all investors have equal access to critical data. This helps maintain fair and

efficient markets, preventing information asymmetry, and reducing the likelihood of insider trading or market manipulation. And every time there is unusual market activity without a reason, there is prima facie suspicion that someone is taking advantage of the information asymmetry. There must be a level playing field.

## **COMPLIANCE WITH REGULATORY STANDARDS**

Publicly listed companies are required to adhere to regulatory requirements regarding timely disclosure. Complying with these standards not only ensures legal compliance but also demonstrates the commitment to maintaining ethical business practices. Listed companies must realise that they can commit breaches by both commission and omission - withholding a truth is just as bad as telling a lie.

#### MARKET INTEGRITY AND CREDIBILITY

Timely disclosure safeguards market integrity by preventing rumours or misinformation from spreading. It also enhances the credibility of the company, as stakeholders perceive the organisation as trustworthy and accountable for its actions. The brand name and reputation, though intangible, do impact the bottom-line. Customers shy away from companies with a sullied brand name or dubious reputation.

#### STAKEHOLDER INCLUSIVITY

Timely disclosure enables broader stakeholder inclusivity beyond investors, including employees, customers, suppliers, and the public. These stakeholders have vested interest in the company's performance and deserve timely updates to make informed decisions. The definition of corporate governance alludes to the importance of shareholders but also goes on to state that stakeholder interests should not be compromised.

#### **RISK MITIGATION**

Swift disclosure of material information helps in managing risk effectively. Investors and analysts can evaluate the potential impact of the disclosed information and adjust their investment strategies accordingly - reducing financial losses or maximising gains. Research reports will be more up-to-date and price targets will be set based on the latest available information.

#### **ENHANCE MARKET EFFICIENCY**

When relevant information is promptly disseminated, market prices can adjust quickly to reflect the new data. This promotes market efficiency by minimizing price volatility and providing a more accurate reflection of the company's value. The much touted and coveted price discovery is allowed to take place.

#### LEGAL COMPLIANCE AND LIABILITY REDUCTION

Failure to disclose material information in a timely manner can expose the company to legal liabilities, lawsuits, and regulatory sanctions. Shareholders can take derivative actions under the Companies Act 2016 against the directors of the company. Adhering to disclosure requirements reduces these risks and protects the company's reputation and financial stability.

#### GLOBAL COMPETITIVENESS

In an interconnected global economy, timely disclosure enhances a company's competitiveness. It attracts international investors and enables the company to access capital markets on favourable terms. International investors are something we can do with. As such, Bursa Securities' firm stance against asymmetry of information - the nondisclosure of material information in a timely manner, is the right way to go towards building equity market confidence. And to borrow the words of Bursa Securities, it is all about 'corporate credibility, market integrity and investor confidence'.
