Bursa Malaysia's Q1 net profit rises 88%

According to Bursa Malaysia chief executive officer Datuk Muhamad Umar Swift, Bursa Malaysia Bhd posted an 87.5% increase in net profit to RM121.39mil in the first quarter (Q1) ended March 31, 2021 from RM64.73mil in the previous corresponding quarter due to a jump in operating revenue. Revenue was up 54.07% year-on-year (y-o-y) to RM232.28mil as average daily trading value for securities market's on-market trades more than doubled to RM5.1bil in the quarter. For the quarter, the securities market registered trading revenue rose to RM150.9mil from RM78.1mil in the same period a year ago. The higher effective clearing fee rate in Q1 also contributed to the increase in trading revenue but this was partially offset by the lower number of trading days. Trading velocity in Q1 was higher by 31 percentage points to 70% compared with 39% during the same period last year. Domestic retail investors played a significant role in the market due to easy access and the low interest rate environment. There has been a resilient performance in Q1 and it is expected to continue to attract investments and trading in 2021. Derivatives market trading revenue decreased 15.7% to RM22.6mil in the quarter, mainly owing to fewer contracts traded for crude palm oil futures and FTSE Bursa Malaysia KLCI futures, as well as fewer trading days in the quarter. On Islamic markets, higher trading activity in Bursa Suq Al-Sila' pushed up trading revenue by 16% to RM3.4mil. In consideration of the continuing impact of Covid-19 this year, the exchange will continue to support market participants by providing facilitative ecosystem initiatives alongside relief measures to ease financial burden and provide greater flexibility that can aid and support them through this challenging period. The three-year (2021-2023) Strategic Roadmap has been formulated to ensure that the exchange remains competitive and continues to enhance value for the stakeholders.

Malaysia's total trade expands by 25.6% to RM185.7b in March 2021

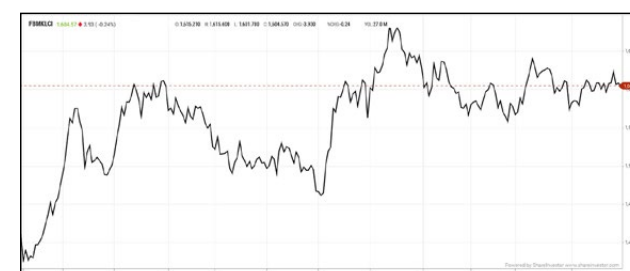

According to Senior Minister Datuk Seri Mohamed Azmin Ali, who is also the International Trade and Industry Minister, Malaysia's trade performance continued its upward trajectory in March 2021, registering the highest monthly value for trade, exports, and imports. Total trade expanded by 25.6% to RM185.74 billion compared with March 2020. Exports accelerated by 31%, surpassing the RM100 billion mark to reach RM104.95 billion. Imports increased by 19.2% to RM80.79 billion and trade surplus surged by 96.1% to RM24.15 billion. On external trade performance for march 2021, trade, exports, imports and trade surplus recorded double-digit growth for two consecutive months. For the first quarter of 2021 (1Q21), total trade grew 14.8% to RM505.65 billion compared with the corresponding period last year. Exports increased by 18.2% year-on-year (y-o-y) to RM282.14 billion and imports rose by 10.8% to RM223.51 billion. Trade surplus expanded by 58.6% y-o-y to RM58.63 billion in 1Q21. Exports in March were boosted by higher global demand notably for electrical and electronic (E&E) products, mainly semiconductors used in 5G technology and high-performance computing as well as rubber products. Exports to major markets, namely ASEAN, China, the United States (US) and the European Union

“ Malaysia's total trade expands by 25.6% to RM185.7b in March 2021 ”

(EU), registered a new all-time high. Compared with February 2021, total trade, exports, imports and trade surplus grew by 18.1%, 19.8%, 15.9% and 35.1%, respectively. Comparing 1Q21 with 4Q20, total trade, exports and imports recorded an increase of 4.7%, 3.9% and 5.6%, respectively. Trade surplus declined by 2.1%. On export performance of major sectors, manufactured goods in March 2021 reached their highest monthly value at RM91.21 billion or 86.9% of total exports, growing by 34.9% y-o-y. The expansion was due mainly to higher shipments of E&E products, rubber products, manufactures of metal, chemicals and chemical products as well as machinery, equipment and parts. These products recorded the highest export value thus far. Exports of agriculture goods (7.1% share) surged by 43.8% to RM7.48 billion compared with March 2020, buoyed mainly by higher exports of palm oil and palm oil-based agriculture products. However, exports of mining goods (5.0% share) declined by 24.1% y-o-y to RM5.23 billion on account of lower exports of liquefied natural gas, crude petroleum as well as metalliferous ores and metal scrap. In March 2021, E&E products were the major exports. They were valued at RM39.54 billion, up 47.1% from a year earlier, and constituted 37.7% of total exports. Rubber products came in second with a value of RM7.32 billion (7% of total exports), surging by 210.6% y-o-y. On a month-on-month (m-o-m) basis, exports of manufactured, agriculture and mining goods expanded by 20.2%, 31.4% and 0.8%, respectively. On import performance, total imports grew 19.2% y-o-y to RM80.79 billion in March 2021. The three main categories of imports by end use, which accounted for 73.1% of total imports, were intermediate goods (RM43.65 billion or 54% of total imports), capital goods (RM8.32 billion or 10.3%) and consumption goods (RM7.12 billion or 8.8%). Imports of intermediate goods grew by 4.6% to RM121.38 billion, capital goods (RM23.15 billion, up 32.7%) and consumption goods (RM19.56 billion, up 10.1%). MATRADE noted that this is a preliminary release and full details will be published by the Statistics Department in its monthly external trade statistics report, to be disseminated on May 4, 2021.

It Is All About Confidence

As Covid-19 remains a major threat for most economies, especially in some parts of Asia, the trend in countries where vaccination is at an advanced stage does suggest that the rate of infection is decreasing. With the US already hitting close to 30% fully vaccinated, confidence in the economy is rising. Nevertheless, all this has come at a cost too and in its efforts to boost tax revenue, President Joe Biden is expected to almost double the capital gains tax rate for wealthy individuals who earn more than US\$1mil to as high as 39.6% from the current rate of 20%. This is part of the President's US\$1.8 trillion 10-year plan to increase the government's support for families.

Meanwhile, the 2-day FOMC meeting left interest rates unchanged, as expected. The Fed also upgraded its view of the economy but at the same time reiterated that support for the economy will continue. According to the Fed, while inflation has risen, it remains transitory and its asset purchase program will remain in place.

Economy

One of the most important economic data points of the US economy, the Conference Boards' Consumer Confidence, surge to a pre-pandemic high of 121.7 in April, from 109.0 in March. US economic data over the past week again exhibited the strength of the world's largest economy as new home sales rose 20.7% m-o-m to an annualized rate of 1.021 million in March, which was the fastest pace since 2006. The demand for homes is also driving prices as the S&P CoreLogic Case-Shiller Index surged another 12% in February y-o-y, which was the biggest jump since 2006.

Locally, Malaysia's March headline inflation came in slightly ahead of expectations at 1.7% y-o-y increase while the core inflation remains stable at 0.7%. However, the Producer Price Index (PPI) local

production for the same month jumped to 6.7% y-o-y, driven by a surge in Agriculture, Forestry and Fishing components, which swelled by 41.1%, and the Mining segment, which jumped 32% y-o-y. Malaysia's March external trade data was also released this week which saw both export and imports jumping by 31% and 19.2% to RM104.9bil and RM80.8bil respectively. The trade surplus for the month almost doubled to RM24.2bil. The strong March 2021 data helped Malaysia's 1Q 2021 trade surplus to jump 58.6% y-o-y to RM58.6bil from RM37.0bil a year ago.

The Finance Minister, in explaining the rationale for utilising RM5bil from the National Trust Fund, also explained that Malaysia would hit a 6.2% budget deficit this year if it does tap into the Fund.

Corporate

The Securities Commission (SC) released the enhanced Malaysian Code of Corporate Governance 2021 (MCCG 2021) and among others discourage the appointment of active politicians to the board of companies. The MCCG 2021 also calls for all boards of listed companies to have 30% women participation while the chairman of a board should not be a member of other board committees. The SC is also concerned with long tenure independent directors serving public listed companies and a 12-year term limit is expected to be introduced in 4Q of this year.

Top Glove has decided to reduce its primary share offerings for its listing on the Hong Kong Stock Exchange. Instead of issuance of 1.495bil shares, the world's largest glove manufacturer said its public issue will now entail the issuance of up to 793.55mil shares. The expected gross proceeds too will be reduced to up to RM4.17bil against the previous estimate of RM7.7bil. Meanwhile, Top Glove also announced that it has resolved all 11 International Labour

Organisation (ILO) indicators related to its labour practices.

In contract news, Kumpulan Powernet won RM510mil worth of Engineering, Procurement, Construction and Commissioning (EPCC) and for four mini-hydropower plants located in Pahang and Perak. Sapura Energy was also in the news for new contracts as it secured six oil and gas contracts worth some RM1bil, while IJM won two construction contracts valued at RM327.6mil.

Meanwhile, BDO Capital Consultants Sdn. Bhd., the independent advisers for the mandatory takeover offer on Eastern & Oriental (E&O) opined that the offer is "not fair and not reasonable" and called upon shareholders to reject the offer made by Amazing Parade Sdn. Bhd. In other M&A news, Ancom Bhd is set to acquire the assets and liabilities of Nyllex (Malaysia) Bhd with the latter distributing RM35mil of the cash proceeds and 31.1mil shares of Ancom to the minority shareholders of Nyllex.

Equity

In terms of the equity market's performance, markets generally closed firmer this week with gains ranging from 0.1% and 4%. Markets that were weaker closed between 0.1% and 0.9% lower. Over on Bursa Malaysia, despite the selling pressure among glove stocks after the recent rally, the KLCI managed to close largely flat for the holiday-shortened week.

In terms of trading participation, local retailers emerged as the largest segment of net buyers on the local bourse with net buying interest of RM140.9mil for the 4-day trading period, while local institutions' net buying interest stood at RM56.2mil, while foreigners were net sellers to the tune of RM197.1mil.

When UMA fails to deter the rise of Dataprep

A truly rags-to-riches story, share price of Dataprep Holdings Bhd, an information communications technology (ICT) service provider had soared over 772% from a low of 16.5 sen on the eve of Chinese New Year (11 February) to close at RM1.44 on 1 March within a fortnight. The sharp rise in price and volume has prompted the stock exchange to issue an Unusual Market Activity (UMA) query to the Company on 1 March. Claiming that it is unaware of circumstances leading to the meteoric rise of its share price, Dataprep said the group has been continuously working on new opportunities to enhance the value of the company. "The board of directors will make the necessary announcement and comply with Bursa Securities Listing Requirements, in particular Paragraph 9.03 of the Main Market Listing Requirements on immediate disclosure obligations," added the response to Bursa's UMA.

Typically, an UMA query seeks to flush out the reasons behind a material rise in price and/or volume of a stock. And if the answer to the query is that the company is unaware of reasons for the share price and/or volume increase, the share price will tend to take a downtrend. However, this was not the case with Dataprep's share price. Not only did the UMA query fail to quell interest in the stock, the stock resumed its meteoric rise. On 10 March, the Exchange issued an advice to investors, urging them to exercise caution in the trading of Dataprep shares. "The exchange will not hesitate to take appropriate regulatory action to ensure fair and orderly trading of Dataprep shares," the Exchange pointed out in a statement. The counter closed at RM3.15, after touching an intraday/all-time high of RM3.33 on the day the trading advice was issued. Like the UMA query, the advice failed to stop the hike in the share price. The share price of Dataprep soared to an all-time

high of RM4.13 on 16 March – a staggering increase of 2,400% from the 16.5 sen at the outset of the mind-boggling rally. Recently, the stock proved that it still had much firepower left by resuming its meteoric run after dipping to a low of 72.5 sen on 13 April. For the one-week period between 14 and 21 April, the stock had climbed 255% to RM2.57.

No solid ground

For the record, Dataprep is known to be loss-making for several years. Its net loss widened to RM9.78 million in FY2020, compared to RM5.87 million a year ago despite a higher revenue of RM36.22 million (FY2019: RM28.92 million). Minority shareholders should determine whether its recently-announced corporate developments are impressive enough to warrant the meteoric share price increases. On 18 March, Bursa Malaysia issued a query letter with ten questions to Dataprep to seek further information. This was in relation to its earlier announced memorandum of collaboration (MOC) with Asia Coding Centre Sdn Bhd to form a strategic partnership to undertake a project in relation to providing integrated solution technology for COVID-19 screening for the Health Ministry (MOH). In its query, Bursa Malaysia asked Dataprep to furnish further information pertaining to the collaboration as there was a lack of pertinent information to enable informed investment decision-making by shareholders. Aside from revealing that the MOC would be effective for three years from 12 March onwards, the Company did not elaborate further on other salient information such as prospects of the project, estimated capital and investment outlay, potential project value, et cetera. In addition, a proposed acquisition was announced on 15 March that would enable Dataprep to ac-

quire 51% of the total issued and paid-up share capital of Asia Biomed Sdn Bhd for RM510 cash. By all accounts, the MOC and proposed acquisition do not look compelling enough to warrant the steep rise in Dataprep's share price.

No smoke without fire

Companies that furnish the standard line that "the board is not aware of any reasons that may have caused the unusual price and/or trading activity" amidst soaring share prices will draw the vigilance of regulators as the share price movements tend towards a not-so-fair and not-so-orderly market in the trading of those securities. The market regulator has stated that "where the reply to the UMA query is found to be inaccurate or misleading subsequently, enforcement action may be taken against the listed issuer and the culpable directors for breach of the Main/ACE Market/LEAP Market Listing Requirements". Dataprep's share-price resilience has proven that it is not necessarily true that the share price of a company will retreat immediately after being issued an UMA query or when the company replies that they are not aware of any reasons that may have contributed to the material share-price increases. On the contrary, the share-price of a handful of them surge upwards instead of retreating – this is utterly puzzling. If you are a fundamental investor, and you see share prices surging upwards meteorically without reason, you should remember the words of renowned fund manager and author Peter Lynch who once said 'Behind every stock, there is a company. Find out what it's doing'.

The stock market is not meant to be a casino though some minority shareholders treat it as a casino; just make sure you are not the casino operator – directly or indirectly.

Advance Synergy Berhad

Pursuant to paragraph 9.19(40) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, Advance Synergy Berhad (**ASB**) wishes to inform Bursa Securities that Captii, our subsidiary which is listed on the SGX, had on 27 April 2021 made an announcement to the SGX on their response to shareholder questions on Captii's annual report for the financial year ended 31 December 2020 prior to the live webcast of Captii's Annual General Meeting on 28 April 2021.

Affin Bank Berhad

The Board of Directors of Affin Bank Berhad (**AFFIN**) wishes to announce that the Company proposes to seek shareholders' approval for the Proposed Shareholders' Mandate which are necessary for the day-to-day operations of ABB and/or its subsidiary companies in line with Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad at its forthcoming Annual General Meeting to be held on 2 June 2021. Further details of the Proposed Shareholders' Mandate are set out in the Circular to Shareholders dated 30 April 2021 which will be made available on the website of Bursa Malaysia Securities Berhad and the Company.

Digi.com Berhad

Digi.com Berhad (**Digi**) recorded a total revenue of RM1,550 million in the first quarter of 2021, the company announced today. This was largely attributed to a steady growth of 3.2% y-o-y internet and digital revenue, alongside improved 23.1% y-o-y device and other revenues. Effects from border closures, changes in prepaid subscribers and revenue mix moderated service revenue performance to -3.6% y-o-y. Excluding roaming, the service revenue would have declined by -2.6% y-o-y. The company's focus on operational efficiency resulted in EBITDA at RM737 million, or margin of 48% while operational cash flow strengthened to RM580 million.

Airasia Group Berhad

The Board of Directors of Airasia Group Berhad (**AIRASIA**) wishes to announce that the Company intends to seek the approval of its shareholders for the Proposed Mandate at the forthcoming Annual General Meeting of the Company to be convened. A circular to shareholders containing the details of the Proposed Mandate will be issued to the shareholders of the Company, in due course.

Airasia X Berhad
