BNINI RAISES OPR BY 25 BASIS POINTS TO 3.00%

ank Negara Malaysia's Monetary Policy Committee (MPC) has raised the overnight policy rate (OPR) by another 25 basis points (bps) to 3.00% in a surprise move on Wednesday (3May). The ceiling and floor rates of the corridor of the OPR are correspondingly increased to 3.25 percent and 2.75 percent, respectively.

MONETARY STIMULUS WITHDRAWN BASED ON STRENGTH OF ECONOMY

With the domestic growth prospects remaining resilient, the MPC judges that it is timely to further normalise the degree of monetary accommodation. With this decision, the MPC has withdrawn the monetary stimulus intended to address the Covid-19 crisis in promoting economic recovery. Considering the continued strength of the Malaysian economy, the MPC also recognises the need to ensure that the stance of monetary policy is appropriate to prevent the risk of future financial imbalances. At the current level, the monetary policy stance is slightly accommodative and remains supportive of the economy. The MPC will continue to ensure that the monetary policy stance remains consistent with the outlook of domestic inflation and growth.

GLOBAL ECONOMY WEIGHED DOWN BY COST AND INTEREST RATES

The global economy continues to be driven by resilient domestic demand supported by strong labour market conditions, and a strongerthan-expected rebound of China's economy. Nevertheless, the global economy continues to be weighed down by elevated cost pressures and higher interest rates. Headline inflation continued to moderate, but core inflation has persisted above historical averages.

FURTHER EXPANSION IN DOMESTIC ECONOMY

For most central banks, the monetary policy stance is likely to remain tight. The growth outlook remains subject to downside risks, mainly from an escalation of geopolitical tensions, higher-than-anticipated inflation outturns, and a sharp tightening in financial market conditions including from further stress in the banking sector. For the Malaysian economy, latest developments point towards further expansion in economic activity in the first quarter of 2023 after the strong performance in 2022. While exports are expected to moderate, growth in 2023 will be driven by domestic demand. Household spending remains resilient, underpinned by better labour market conditions as unemployment continues to decline to pre-pandemic levels.

TOURIST ARRIVALS, INFRASTRUCTURE AND DOMESTIC FINANCIAL CONDITIONS CONDUCIVE

The pickup in tourist arrivals is expected to lift tourism-related activities. Further progress of multi-year infrastructure projects will support investment activity. Domestic financial conditions also remain conducive to financial intermediation, with no signs of excessive tightening affecting consumption and investment activities.

CORE INFLATION AT ELEVATED LEVELS

Risks to the domestic growth outlook are relatively balanced. Upside risks mainly emanate from domestic factors such as stronger-thanexpected tourism activity and implementation of projects including

those from the re-tabled Budget 2023, while downside risks stem from weaker-than-expected global growth and more volatile global financial market conditions. As expected, headline inflation trended lower in recent months on account of moderating cost factors. Both headline and core inflation are expected to moderate over the course of 2023, averaging between 2.8% - 3.8%. However, core inflation will remain at elevated levels amid firm demand conditions.

PRICE CONTROLS, FUEL SUBSIDIES TO HELP CONTAIN **INFLATION**

Existing price controls and fuel subsidies will continue to partly contain the extent of upward pressures to inflation. The balance of risk to the inflation outlook is tilted to the upside and remains highly subject to any changes to domestic policy including on subsidies and price controls, financial market developments, as well as global commodity prices.

AN "UNFAIR YET REASONABLE" PRIVATISATION OFFER FOR BOUSTEAD FROM LTAT

Devanesan Evanson

Chief Executive Officer, Minority **Shareholders Watch** Group

s a highly geared holding company whose subsidiaries are mired in a myriad of business challenges from the issues in relation to the RM9.13 billion littoral combatant ships (LCS) contract in Boustead Heavy Industries Corporation Berhad (BHIC) to the Practice Note 17 (PN17)-affected Pharmaniaga Berhad, it is understandable why some minority shareholders would welcome the conditional voluntary takeover offer by the Armed Forces Fund Board (LTAT or the Offeror) to acquire the remaining shares in Boustead Holdings Berhad.

Kenanga Investment Bank Berhad (KIBB), the independent adviser of the Offer, has deemed the offer price of 85.5 sen per share by LTAT as "not fair but reasonable". The Offer is deemed not fair as this translates to a discount of between 45.3% and 51.7% to the estimated value of Boustead's sums-of-parts (SOP) valuation of between RM1.563 and RM1.751 per share.

Nevertheless, the adviser recommended Boustead's shareholders accept the Offer, for it deemed the Offer to be reasonable in that it represents a premium of between 15.64 sen (22.39%) and 23.63 sen (38.19%) over the five-day, one-month, three-month, six-month and oneyear volume-weighted average price of Boustead shares - up to and including the last trading day (1 March 2023, prior to the date of the takeover offer notice received by Boustead's board) - of between 61.87 sen and 69.86 sen. This must probably be the most compelling reason to accept the Offer. As of 27 April, shares of Boustead were traded at 85.5 sen.

Secondly, KIBB further noted that LTAT also does not intend to maintain the listing status of Boustead. As such, the Offeror will not be taking any steps to address any shortfall in the public shareholding spread of Boustead in the event Boustead does not meet the public spread requirement after the closing date. With LTAT's shareholding in Boustead crossing the critical 75% mark to 75.08% (as of 26 April 2023 as per announcement to Bursa Malaysia), the public shareholding spread of Boustead is now below the 25% threshold required under Paragraph 8.02(1) of the Listing Requirements to maintain a listing status.

Lastly, the reasonableness of the Offer lies in the fact that there is no competing offer or alternative offer for Boustead shares or its business, assets and liabilities.

BACKGROUND INFORMATION

Based on the outstanding shares of 822.51 million or 40.58% of Boustead, LTAT is expected to spend RM703.25 million in the privatisation exercise. The Offeror has maintained that its takeover offer is not conditional upon any minimum level of acceptance as it already holds more than 50% of the voting shares in Boustead.

However, the Offer is conditional upon the Finance Minister's approval subject to Bank Negara Malaysia's (BNM) recommendation and its approval under Section 87 of the Financial Services Act 2013 (FSA) as well as Section 99 of the Islamic Financial Services Act 2013 (IFSA) to allow the offeror to acquire up to 100% equity interest in Boustead.

Additionally, LTAT said the Offer is conditional upon waiver from the central bank from complying with Section 110 of the FSA and Section 122 of the IFSA in relation to the requirement for LTAT and/or its nominated company to be approved as a financial holding company of Affin Bank Berhad and other relevant licensed entities. "These conditions must be fulfilled within 21 days after the first closing date, as stipulated in the Rules on Take-overs, Mergers and Compulsory Acquisitions issued by the Securities Commission."

Above all else, LTAT explained that the exercise will provide the fund greater flexibility to implement the turnaround plan for Boustead as part of its objective of ensuring the sustainability of the fund for the benefit of Malaysian Armed Forces and veterans in line with LTAT's ongoing transformation plan.

For clarity, the Offer will not result in a mandatory offer by LTAT to acquire all the remaining voting shares in Boustead's various subsidiaries, namely Affin Bank, Boustead Plantations Berhad, BHIC and Pharmaniaga that LTAT does not already hold in view that LTAT already has statutory control over Boustead.

THE VERDICT

Based on the reasons highlighted previously and without a competing/ alternative offer, it makes sense to regard LTAT's offer as an opportunity for Boustead shareholders to cash out at the offer price of 85.5 sen per share. Such a move is also lauded by KIBB and its non-interested directors considering LTAT having no intention to maintain Boustead's listing status.

This itself can be a cause for concern insofar as minority shareholders are concerned, especially with LTAT holding the bulk of the voting shares in Boustead and with no alternative proposal in place. With LTAT's substantial stake (75.08% as of 26 April 2023) in Boustead, any alternative proposal will not be successful unless with the blessing from LTAT.

More broadly, Boustead shareholders may consider this a relief factor for them given that Boustead's 65%-owned BHIC has been struggling with the completion of an RM9.13 billion contract awarded by the Malaysian government in 2011 to build six littoral combatant ships (LCS) whereby none of the vessels has been delivered to-date.

Additionally, the Group owns a 52% stake in Pharmaniaga, which was classified as a PN17-affected listed issuer after it suffered a net loss of RM644.4 million in its 4QFY2022 ended 31 December 2022 amid an RM552.3 million provision for slow-moving COVID-19 vaccine inventory.

Besides, Boustead's high gearing level of 1.28 times based on debts over equity may not sit well with shareholders. As a perspective, its total borrowings amounted to RM6.79 billion, with close to 60% or RM4.04 billion of them being short-term borrowings due in the next 12 months. At the same time, Boustead's total equity amounted to just RM5.3 billion as of 31 December 2022.

On top of that, it is worth noting that its RM1.6 billion Islamic mediumterm notes are due for repayment in FY2024, and outstanding perpetual sukuk of RM607 million carries high profit rates ranging from 9.75%

to 11.6% per annum (with a step-up rate of 1% per annum, subject to a maximum of 15% per annum).

Given the Group's volatile earnings in the past five years, coupled with the potentially time-consuming divestment process, obtaining support from financial institutions to refinance its existing debts and redeem the perpetual sukuk could be challenging.

Perhaps a lesson that minority shareholders can learn from this LTAT takeover exercise is that statutory funds or any fund or major shareholders can always opt for the privatisation route as a way out of misery when a PLC continues to find itself in bad financial shape despite numerous resurrection efforts.

Each minority shareholder will have a view as to whether they should accept the offer or wait. And this depends on a myriad of factors, such as whether the share price will ever reach the offer price or, if it does, when it will do so.

Should shareholders choose not to accept the Offer, they might end up holding shares in an unlisted entity if Boustead is delisted from Bursa Malaysia and thus may have limited opportunities to realise their investment in Boustead.

Lastly, given the burgeoning issues Boustead faces, it would take some time to sort things out - maybe more than some time. There are compelling reasons to justify the acceptance of the Offer by minority shareholders. As always, minority shareholders should make their own informed investment decisions according to their respective risk appetites.
