## MALAYSIAN ECONOMY OFF TO SLOW START IN 1Q 2023 - SERC

ccording to Socio Economic Research Centre (SERC) executive director Lee Heng Guie, the Malaysian economy is off to a slow start in the first quarter of 2023 due to weakening exports and normalisation of domestic demand. Despite this, the Malaysian economy is still expected to grow this year, albeit at a slower pace compared with last year with an estimated growth rate of 4.1%. After staging a strong recovery growth of 8.7% in 2022 post the Covid-19 pandemic, the Malaysian economy is expected to normalise to an estimated 4.1% in 2023 on a more sustainable pace of private consumption, which made up 60.2% of total GDP in 2022.

Speaking at SERC's media briefing and press conference on Malaysia's quarterly economy tracker (January-March 2023), he said that exports, which had been a strong contributor to the economy, have displayed slowing momentum since late 2022. In addition, SERC expects Bank Negara Malaysia (BNM) to increase the overnight policy rate to 3% this year to address inflation. BNM has stated that any adjustment to the degree of accommodation will take into consideration the evolving global and domestic conditions and their implications on the overall outlook of domestic inflation and growth.

Malaysia's most recent economic data indicates a sluggish beginning to 2023 with the leading index continuing to decline in January 2023, marking three consecutive months of contraction. The industrial production index (IPI) registered a low single-digit growth of 3.6% year-on-year in February and 1.8% in January from 4% in Q4 2022 and 12.2% in Q3 2022, due to dissipating overseas demand besides slower industrial output was weighed down by slower growth in the manufacturing sector (3% in Jan-Feb 2023 vs. 4% in Q4 2022 and 13.4% in Q3 2022) and a decline in the electricity sector.

Meanwhile, manufacturing sales reported double-digit growth of 10.3% y-o-y in February from 6.5% in January and 8.8% in December 2022 and that export-oriented industries, which accounted for 71.1% of total sales, expanded by 10% in February and 6.9% in January, while domestic-oriented industries (28.9% of total sales) accelerated by 11% in February and 5.6% in January.

China's reopening will help to sustain stronger domestic tourism-related spending such as retailing, restaurants and accommodation.

Exports continued to see a much slower growth of 5.4% y-o-y in Jan-Feb compared to 11.8% in Q4 2022. In addition, the banking sector's outstanding loan grew at a slightly more moderate pace at 5.2% y-o-y in February from 5.7% in December 2022, supported by the household sector (5.7%), while loans demand for business and others increased by 4.4%.

## FOREIGN BUYING OF MALAYSIAN EQUITY TICKED UP TO RM18.8 MIL LAST WEEK - MIDF

According to MIDF Research's Royce Tan Seng Hooi, in his fund flow weekly report on Monday (10Apr), foreign buying of Malaysian equity on Bursa Malaysia ticked up to RM18.8 mil last week, from RM11.5 mil the prior week. It was a rather mixed trading week with a negative bias among foreign investors, as they net sold for four out the five trading days. However, the net buying of RM63.0 mil on Thursday

cushioned the net selling for the rest of the week. Foreign investors net sold RM150,000 on Monday, RM14.9 mil on Tuesday, RM24.4 mil on Wednesday and RM4.7 mil on Friday. Thursday was the only day with net inflows, which saw the bulk of foreign funds flowing into blue chips, namely Petronas Gas Bhd, QL Resources Bhd and Public Bank Bhd.

Sentiments remain healthy, lifted by Prime Minister Datuk Seri Anwar Ibrahim's recent visit to China, which secured the commitment of RM170.07 billion of Chinese investments into several industries in Malaysia, and also RM2.44 billion of potential exports to China. Top three sectors that saw net foreign inflows last week were Consumer Products & Services (RM39.1 mil), Utilities (RM24.2 mil) and Energy (RM18.2 mil), while the top three sectors that saw net foreign outflows were Financial Services (RM39.1 mil), Healthcare (RM30.2 mil) and Technology (RM16.9 mil). Year-to-date, foreigners have net sold Malaysian equities for nine out of 14 weeks, totalling RM1.86 billion.

Institutional investors returned as net buyers with a total of RM50.1 mil, after briefly turning net sellers at RM3.9 mil the week before. They net sold RM71.0 mil on Thursday but were net buyers for the rest of the week. Year-to-date, institutional investors have been net buyers for 10 out of 14 weeks, with a total of RM1.82 billion.

Local retailers net sold for the second consecutive week at RM69.0 mil. They net bought RM8.0 million on Thursday but were net sellers for the rest of the week. They have net bought for seven out of 14 weeks this year, with a total of RM22.9 mil. In terms of participation, there was a decline in average daily trading volume (ADTV) among local retailers by 5.8%, local institutions by 3.2% and foreign investors by 18.8%.

Global markets entered the second quarter of the year rather mixed amid sentiment-dampening news flow and lingering concerns of a slowdown, but hopeful of earlier than expected US Fed pivot. It was a shortened trading week last week, in conjunction with the Good Friday holiday in most major countries and a rather timely one, which allowed investors to digest the data of a cooling labour market, alongside other developments earlier in the week. The S&P 500 declined -0.1% for the week, while the Dow Jones Industrial Average gained 0.63%.

The tech-heavy Nasdaq Composite Index lost 1.1%, dragged by the slump in Tesla's share price that took a 10.6% hit for the week, as its deliveries in the first quarter fell short of expectations despite it being a record number. The electric car giant also slashed its prices overnight to support demand.

### **EYE ON THE MARKETS**

This week, on Friday (14Apr), the Ringgit opened at 4.3905 against the USD from 4.4075 on Monday (10Apr). Meanwhile, the Ringgit opened at 3.3126 to the Sing Dollar on Friday (14Apr). On Monday (10Apr), the FBM KLCI opened at 1427.89. As at Friday (14Apr) 10:00am, the FBM KLCI is up 6.32 points for the week at 1434.21. Over in US, the overnight Dow Jones Industrial Average closed up 383.19 points (+1.14%) to 34,029.69 whilst the NASDAQ gained 236.93 points (+1.99%) to 12,166.27.

## IMPROVEMENTS **EXPECTED IN** CONDUCTING **AGINIS**

Devanesan Evanson

**Chief Executive** Officer, Minority **Shareholders Watch** Group

he month of April marks the beginning of the bustling annual general meetings (AGM) season. As usual, MSWG encourages shareholders to attend AGMs, as it will provide an opportunity for shareholders to provide feedback and raise questions on the operational and financial performance as well as on any other major developments or issues impacting the company. Shareholders should actively participate in the Question & Answer (Q&A) sessions - ask questions, and closely dissect responses made by the Board and senior management for making informed decisions about their investments.

On the other hand, we believe PLCs could do better in conducting their AGMs this year by incorporating the following better practices:

- The introduction of senior management
- Multimedia presentation on annual business performance
- The displaying of shareholders' questions on the screen for the benefit of all participants during the meeting (For virtual and hybrid meetings)

## THE INTRODUCTION OF MANAGEMENT

Based on our observation, out of the 382 AGMs (comprising physical, virtual, and hybrid meetings) that we attended in 2022, only 46% of the AGMs introduced the senior management. PLCs are encouraged to introduce key management personnel during the AGM e.g., chief executive officer (CEO), chief financial officer, chief operating officer, finance director. Large PLCs with multiple subsidiaries may introduce the head of respective subsidiaries during the AGM.

## **BUSINESS PERFORMANCE REVIEW**

A briefing on the company's overall business performance is another essential yet often omitted aspect in AGMs. The AGM is a once-in-ayear opportunity for shareholders to learn more about the PLC. A clear, concise and well-articulated multimedia presentation is an effective way to communicate to shareholders to further expand their knowledge about the company and its business. Highlighting the key achievements and challenges faced can facilitate constructive and effective engagement with shareholders.

However, less than half (43% of the 382 AGMs) presented their annual business performance to shareholders through a multi-media presentation or something similar. Often, these sessions came with charts, tables, pictures and videos to present hard facts or figures into easily digestible visuals. The Board should make full use of the presence of the key management personnel at the AGM for a short briefing session as they are the people running the daily business. While some companies may argue that the management analysis and discussion section in annual reports already sufficiently addresses

the business and operational matters, it would be good if the board could update the current challenges, prospects, and outlook as the annual reports and financial statements are dated and a few months old. If PLCs deem the session time-consuming, they can opt for a short presentation and keep it within their preferred timeframe.

## PRESENTATION OF SHAREHOLDERS' QUESTIONS ON **SCREEN**

Transparency is critical at AGMs especially when it comes to virtual meetings. We find that only 62% of the 295 virtual and hybrid AGMs we attended had displayed shareholders' questions on the screen. For the benefit of all participants, PLCs are encouraged to display shareholders' questions on the screen during meetings (for virtual and hybrid AGMs). The virtual AGM should replicate the physical AGM as far as possible.

PLCs may hesitate to display undesired or controversial questions raised by shareholders or may want to cut the Q&A session short. However, doing so, results in a lack of transparency and lack of time for shareholders to raise questions at AGMs. It is better if shareholders' questions are streamed 'live' instead of being collated and moderated by a moderator. With the latter, there is a risk that the moderator may not forward certain relevant albeit sensitive questions to the Board (for answering). PLCs should consider implementing the best practices above at their upcoming AGMs.
